HISTORY OF DEBT.—The historical details of Delaware's State debt from 1865 to 1894 will be found in the STATE AND CITY SUPPLEMENT of April, 1894, page 72. The present extent and condition of the debt and resources of the State are given below, showing that Delaware now holds good assets more than equaling its liabilities.

LOANS— NAME AND PURPOSE.	Interest.—Rate	Interest.—Payable.	Principal,—When Due.	Principal,—Outstand'g.
Bond iss. to school fund 1881.	6	July	July 1, 1906	$156,750

Part of ser. "B" refund. 1887	3	J & D	June 1, 1907	$250,000
Subject to call on or after June 1, 1897.				
Refunding, 1897.....	3	J & D	Dec. 1, 1927	245,000
Subject to call after 1922.				

INTEREST.—On a part of the bonds of series "B" and of the Refunding bonds of 1897 is payable at the Philadelphia National Bank in Philadelphia.

TOTAL DEBT, ETC.—The total liabilities on March 1, 1900, were $769,750. The assets on Mar. 1, 1899, were $934,743; assets in excess of liabilities $164,993. The total assets include bank stocks $308,450; mortgages on railroads $385,000, and bonds, $161,750.

ASSESSED VALUATION.—The total assessed valuation of the State in 1890 was $74,134,401; in 1897 it was $77,632,079.

DEBT LIMITATION.—Neither the new Constitution (adopted June 4, 1897,) nor the old Constitution nor the State statutes contain any general provisions authorizing bond issues or limiting the debt-making power, *except* that the new Constitution—

(1) Forbids the State (Article 8, Sec. 3) to borrow money or create debt, "but pursuant to an Act of the General Assembly passed with the concurrence of three-fourths of all the members elected to each House, except to supply casual deficiencies, repel invasion, suppress insurrections, defend the State in war or pay existing debts."

(2) Forbids any county, city, town or other municipality (Article 8, Sec. 8) to "lend its credit or appropriate money to, or assume the debt of, or become a shareholder or joint owner in, or with, any private corporation or any person or company whatever."

(3) Forbids any corporation (Article 9, Sec. 1) to be created, etc., by special act, "but only by or under general law"; "but the foregoing provisions shall not apply to municipal corporations, banks," etc.

The above indicates that the authority as regards municipalities [except as already specified in number (2)] rests with the General Assembly, and the General Assembly always passes special acts to provide for special occasions and needs.

POPULATION OF STATE.—The population of Delaware has been as follows in the years mentioned:

1890	168,493	1860	112,216	1830	76,748

DEBT LIMITATION.—There is nothing in the Constitution of Maryland limiting the power of the Legislature to authorize bond issues either by the State or by its municipalities. No general limit for cities and towns has been fixed by the Legislature, nor is there any general authorization to be found in the statutes under which cities and towns can issue bonds. This power is lodged in the Legislature, and is delegated to the municipalities from time to time for specific purposes as the occasion may arise. It is necessary, therefore, for the investor to study the law in each case on this as well as on other points affecting the loan with respect to which he may need information.

POPULATION OF STATE.—

1890	1,042,390	1860	687,049	1830	447,040
1880	934,943	1850	583,034	1820	407,350
1870	780,894	1840	470,019	1810	380,546

Of the total population in 1880 22·49 per cent was colored and in 1890 20·92 per cent. In number, blacks were 165,091 in 1850; 171,131 in 1860; 175,391 in 1870; 210,230 in 1880; and 218,004 in 1880.

SAVINGS BANKS INVESTMENTS.—There are in this State general banking laws under which savings banks may be organized, and yet we notice that even in 1890 a special charter was granted incorporating the Germania Savings Bank of Baltimore. However, in both the general and special laws there appears to be a pretty general authority granted for investing the deposits. The general law states that—

Any savings institution incorporated under this article shall be capable of receiving from any person or persons, or bodies corporate or politic, any deposit of money *which shall be invested or loaned out on good security in the discretion of the directors;* provided that *no part* of the funds of said corporation *shall be loaned to any officer or director* of such corporation.

In the special law passed in 1890, which we have referred to above, the power to loan the deposits is made a little more definite. The section referring to that subject states that the "corporation shall have "power to borrow money, receive money on deposit, loan money '*taking such security therefor, either real or personal, as the Board of* '*Directors may deem sufficient;* provided that *no part* of the funds of "said corporation *shall be loaned to an officer or director* thereof."

We cannot discover any marked difference in the two provisions cited, except that the enactment in the case of the new Baltimore bank states distinctly that the security can be either real or personal. But as much as that would, we think, be assumed as authorized under the general provision, since no limit is made and loaning on bond and mortgage is always a legitimate part of the business of savings banks.

District of Columbia.

(INCLUD'G THE LATE CORPORATION OF WASHINGTON.)

On July 1, 1878, the duties of the Sinking Fund Commissioners of the District of Columbia were transferred to the Treasurer of the United States, and since that date Congress has appropriated annually a sum sufficient to pay not only the interest on the District's bonds but also, it is believed, sufficient to extinguish the entire debt of the District upon the maturity of the 3·65 per cent loan, in 1924. Bonds are tax exempt.

The issue is limited to $15,000,000 and is exempt from taxation by Federal, State or municipal authority. The coupon bonds are for $50 and $500 each, the registered bonds $1,000 and $5,000 each.

INTEREST on the bonds is paid at the United States Treasury in Washington and at the Sub-Treasury in New York.

TOTAL DEBT.—The subjoined statement shows the District's total debt on the dates named:

	Apr. 1, 1900.	Jan. 1, 1900.	Jan. 1, 1897.	Jan. 1, 1896.
Total fund. debt.	$15,092,300.	$15,112,800	$16,933,000	$17,532,600

On July 1, 1878, when the duties of the Sinking Fund Commissioners of the District were transferred to the Treasurer of the United States the total debt was $22,106,650.

On April 1, 1900, stock and bonds to the amount of $3,270 on which interest has ceased were still outstanding; funds for the payment of principal and interest are deposited in the United States Treasury.

ASSESSED VALUATION.—The District's assessed valuation and tax rate at different periods have been as follows:

The State tax (per $1,000) for 1898 was $2·84 and the same for 1899.

DEBT LIMITATION.—Ohio has very carefully guarded the debt-making power of the State. This could not be said while the Constitution of 1802 was in force; for under that instrument it was competent for the Legislature to construct works of internal improvement on behalf of the State, or to aid in their construction by subscribing to the capital stock of corporations created for that purpose, or to authorize in other ways the creation of debt in unlimited amounts. But since the adoption of the Constitution of 1851 the whole situation in these particulars has changed, the legislative power with respect to the State having been limited. The same is in large measure true also of the municipalities.

FIRST, As to the State's power to contract debt, this is regulated under the first five sections of article 8 of the Constitution. Section 1 limits the power to the supply of "casual deficits in revenues or to meet expenses not otherwise provided for," but in the aggregate debts for even the purposes named cannot exceed $750,000. Section 2 contains an *exception* to the foregoing; it grants the power to contract debt in case of invasion, of insurrection, of war or of the redemption of the then existing indebtedness. Section 3 reaffirms the limit, except as above specified. Section 4 forbids the loaning of the State credit. Section 5 further forbids the assumption of debts by States. We insert these five sections in full.

SECTION 1. [*Debt limited to seven hundred and fifty thousand dollars*]. The State may contract debts to supply casual deficits or failures in revenues or to meet expenses not otherwise provided for; but the aggregate amount of such debts direct and contingent whether contracted by virtue of one or more acts of the General Assembly, or at different periods of time, shall never exceed seven hundred and fifty thousand dollars; and the money arising from the creation of such debts shall be applied to the purpose for which it was obtained or to re-pay the debts so contracted and to no other purpose whatever.

SECTION 2. [*Additional and for what purpose.*] In addition to the above limited power the State may contract debts to repel invasion, suppress insurrection, defend the State in war, or to redeem the present outstanding indebtedness of the State; but the money arising from the contracting of such debts shall be applied to the purpose for which it was raised, or to re-pay such debts, and to no other purpose whatever; and all debts incurred to redeem the present outstanding indebtedness of the State shall be so contracted as to be payable by the sinking fund hereinafter provided for as the same shall accumulate.

SECTION 3. [*The State to create no other debt.*] Except the debts above specified in Sections 1 and 2 of this article, no debt whatever shall hereafter be created by or on behalf of the State.

SECTION 4. [*Credit of State; the State shall not become joint owner or stockholder.*] The credit of the State shall not in any manner be given or loaned to or in aid of any individual association or corporation whatever; nor shall the State ever hereafter become a joint owner or stockholder in any company or association in this State or elsewhere formed for any purpose whatever.

SECTION 5. [*No assumption of debts by the State.*] The State shall never assume the debts of any county, city, town or township, or of any corporation whatever, unless such debt shall have been created to repel invasion, suppress insurrection or defend the State in war.

The foregoing sections complete the limitation as to State debt and credit. Sections 7, 8, 9, 10 and 11 of Article 8 cover the matter of sinking funds referred to in Section 2 above. But they need not be published here.

SECOND, As to Cities, Towns, Counties, &c., so far as the Constitution affects the power of the Legislature to authorize these municipalities to create debt, the limitations are found in section 6 of article 8 and in sections 1, 2 and 6 of article 13. (1) Section 6 of article 8 forbids the General Assembly to authorize cities, &c., to become stockholders in or to raise money or loan credit to aid corporations, &c. (2) Sections 1 and 2 of article 13 forbid the passing of special acts and require general acts for conferring corporate powers. (3) Section 6 of article 13 provides that the General Assembly make provision for the organization of cities, &c., by general laws and restrict their debt-making power. These sections are as follows:

ARTICLE 8, Section 6. [*Counties, cities, towns or townships not authorized to become stockholders, &c.*] The General Assembly shall never authorize any county, city, town or township, by vote of its citizens or otherwise, to become a stockholder in any joint stock company, corporation or association whatever; or to raise money for, or loan its credit to, or in aid of, any such company, corporation or association.

ARTICLE 13, Section 1. [*Corporate powers*]. The General Assembly shall pass no special act conferring corporate powers.

Section 2. [*Corporations how formed*]. Corporations may be formed under general laws; but all such laws may from time to time be altered or repealed.

Section 6. [*Organization of cities, &c.*] The General Assembly shall provide for the organization of cities and incorporated villages by general laws and restrict their power of taxation, assessment, borrowing money, contracting debts and loaning their credit, so as to prevent the abuse of such power.

One at first sight would infer from section 6 article 8 above cited that cities could not subscribe to the stock of or loan money to railroads, as railroads are corporations and joint-stock companies. That, however, is not a correct conclusion, as was decided in the case of Walker *vs.* The City of Cincinnati, a case which arose under an act of the General Assembly of Ohio entitled "An Act relating to cities of the first class," authorizing any such city to construct a line of railroad therefrom to any other terminus in that State or in any other State. In pursuance of the authority that act purports to give, Cincinnati undertook to build the Cincinnati Southern Railroad. To test the legality of that proceeding this action was brought. The Court's opinion is very full and explicit, the conclusion being that from "the language "of the section it is quite evident that it *was not intended to prohibit "the construction of railroads nor indeed to prohibit any species of "public improvements.* The section contains no direct reference to "railroads nor to any other special classes of improvements or enter- "prises. The inhibitions are directed only against a particular manner "or means by which under the Constitution of 1802 many public im- "provements had been accomplished."

In compliance with section 6, article 13 (cited above), which provides for the organization of cities etc. by general law, the Legislature has made an elaborate classification of municipal corporations. First they are divided into cities, villages and hamlets. Then cities are divided into two classes, the first class being subdivided into three grades and the second class being subdivided into four grades, the grade being determined by population according to the last Federal Census.

Cities in the FIRST CLASS—First grade includes all cities of more than 200,000 inhabitants; second grade all less than 200,000 and more than 90,000 inhabitants; third grade all less than 90,000 and more than 31,500 inhabitants.

Cities in the SECOND CLASS—First grade includes all cities of less than 31,500 and more than 30,500 inhabitants; second grade all less than 30,500 and more than 20,000 inhabitants; third grade all less than 20,000 and more than 10,000 inhabitants; fourth grade all less than 10,000 and more than 5,000 inhabitants.

VILLAGES—Of the first class include all having less than 5,000 and more than 3,000 inhabitants; the second class includes all having less than 3,000 and more than 200 inhabitants.

HAMLETS—According to section 1550 of the Revised Statutes all existing corporations organized as "incorporated villages for special "purposes shall be hamlets until advanced to villages."

It is impossible to make any satisfactory generalization with regard to the bonding power the Legislature has granted these municipalities. There are a few sections of the Revised Statutes authorizing bond issues which have a universal application, such as the provision granting power to issue bonds in anticipation of special assessments, but most of the laws for that purpose cover only one class of cities, and many of them are so worded as to apply only to one city, and granting an issue of bonds for a specific purpose. No general laws limiting the powers of municipalities to incur indebtedness have been passed, although section 6, article 13, appears to require it. And yet is it not a question whether that section calls for any legislation of a general nature except a general law "for the *organization* of cities, &c."?

POPULATION OF STATE—The population of Ohio has been as follows in the years named.

1890	3,672,316	1860	2,339,511	1830	937,903

CINCINNATI.—{JULIUS FLEISCHMANN, Mayor. PAUL M. MILLIKEN, Auditor.

Cincinnati is situated in Hamilton County.

In 1895 the villages of Avondale, Clifton, Linwood, Riverside and Westwood were annexed to Cincinnati and their indebtedness was assumed by that city. The Legislature of 1900 passed a bill providing for the annexation of a number of surrounding villages, subject to a vote of the places affected.

The city Sinking Fund Trustees entered into an agreement with a New York firm in 1898 looking to the refunding of the Cincinnati Southern Railway bonds. This agreement was set aside by Judge Spiegel on Aug. 18, 1898, and upon appeal the State Supreme Court affirmed that ruling. See Chronicle, V. 67, p. 189 and 442; V. 68, p. 1143. The Board of Trustees of the Cincinnati Southern Railway has also twice advertised for proposals to refund these bonds, first on Dec. 20, 1898 (see Chronicle, Nov. 26, 1898, p. 1122), all bids then received being rejected. They again called for proposals July 19, 1899 (V. 68, p. 1236), but only a small portion had been offered for extension when litigation again blocked further refunding operations. This suit was dismissed on Sept. 7, 1899, by Judge Davis, of the Common Pleas Court, and the case is now (April, 1900,) pending in the State Supreme Court on appeal. By agreement made in March, 1900, between the two boards the Board of Trustees will have until July, 1901, to extend time of payment of these bonds, and if refunding is not accomplished by that time the Sinking Fund Trustees will undertake the operation.—V. 70, p. 495.

There were outstanding on Jan. 1, 1900, street bonds to the amount of $1,206,157·46 payable by special assessment and not included in the above statement of total debt. Of this amount bonds to the amount of $1,045,128·99, together with $92,500 bonds of the Board of Education, were held by the sinking fund, these, and the cash on hand amounting to $687,514·58, being applicable to the payment of the general bonds.

CITY PROPERTY.—The city owns the Cincinnati Southern Railroad. The rental received for the road is $1,090,000 till 1901 and then $1,250,000 till 1906, when lease expires. A proposition to sell the road to the Cincinnati Hamilton & Dayton Railway and the Southern Railway was voted on August 3, 1896, and defeated—V. 63, p. 153, 228. The State Legislature in 1898 passed a bill permitting an election to vote to extend the lease beyond 1906 (V. 66, p. 900), but at this date (April, 1900,) no proposition has yet been submitted. The waterworks pay the interest and sinking fund on all water bonds.

CUYAHOGA CO.—W. E. CRAIG, Auditor. M. A. LANDER, Treasurer.

County seat is Cleveland. The State Supreme Court has declared illegal an Act passed April 27, 1893, authorizing the issuance of bonds by a county containing a city of the first class, second grade, for the purpose of building an armory in such city. Under this decision the armory bonds included below are illegal, but under a law passed by the General Assembly in 1899 the holders of bonds may bring suit for reimbursement. See CHRONICLE, V. 69, p. 1025. Suit was brought and resulted adversely to the complainants.—V. 70, p. 241.

ASSESSED VALUATION.—The following table shows the total valuation of real and personal property and the State tax rate (per $1,000) *for the general fund* for the years indicated.

Years.	*Valuation.*	*State tax.*	*Years.*	*Valuation.*	*State tax*
1899	$1,342,831,161	$0·90	1885	793,526,079	$1·20
1898	1,311,508,008	0·90	1880	$728,944,231	1·20
1897	1,295,965,056	0·90	1875	897,739,783	1·50
1896	1,292,641,237	0·90	1870	662,283,178	1·50
1895	1,286,050,531	0·90	1865	567,381,553	2·00
1894	1,295,106,415	1·00	1860	455,011,378	1·50
1893	1,302,310,250	1·00	1855	301,858,474	2·00
1891	1,255,256,038	1·20	1850	138,362,085	2·50
1889	843,483,466	1·20			

The total tax rate (per $1,000) for 1899 was $2·96⅔, including Benevolent Institution tax $0·50, school tax $1·10, State debt sinking fund tax $0·30, and Educational Institution tax $0·16⅔, in addition to the general fund tax of $0·90 as given above.

DEBT LIMITATION.—In the present Constitution of Indiana, which went into effect November 1, 1851, superseding the Constitution adopted in 1816, there are explicit provisions limiting the power of both the State and its municipalities to contract debt.

FIRST, as to the State, Section 5 of article 10 provides that no debt except to meet casual deficits in revenue, to pay interest, to repel invasion &c. can be contracted. The section in full is subjoined.

CREATION OF DEBT FORBIDDEN.—No law shall authorize any debt to be contracted on behalf of the State except in the following cases: To meet casual deficits in the revenue; to pay interest on the State debt; to repel invasion, suppress insurrection, or, if hostilities be threatened, provide for the public defense.

In the sixth section of the same article the last clause prohibits the assumption by the State of the debts of any municipality or corporation. The clause referred to reads as follows.

Nor shall the General Assembly ever on behalf of the State assume the debts of any county, city, town or township, nor of any corporation whatever.

SECOND, as to municipalities, the provision contained in the Constitution seems to be equally clear and emphatic, and, as will be found, fixes the limit at 2 per cent of the valuation. It is article 13 of that instrument which relates to this subject, and we give the article in full below.

LIMITED—EXCESS VOID.—No political or municipal corporation in this State shall ever become indebted in any manner or for any purpose to an amount in the aggregate exceeding two per centum on the valuation of the taxable property within such corporation, to be ascertained by the last assessment for State and County taxes previous to the incurring of such indebtedness; and all bonds or obligations in excess of such amount given by such corporation shall be void; *Provided,* That in time of war, foreign invasion, or other great public calamity, on petition of a majority of the property owners in number and value, within the limits of such corporation, the public authorities in their discretion may incur obligations necessary for the public protection and defense to such an amount as may be requested in such petition.

It should be said in connection with the above that several laws have been enacted since the foregoing constitutional limit was adopted (March 14 1881), and bonds have been issued by counties thereunder *beyond the 2 per cent limit,* for the construction of "free gravel, stone or other macadamized roads." Several such laws were passed at the 1899 session of the Legislature. But in the case of Strieb vs. Cox, Treas., 111 Ind., the Supreme Court of Indiana held that gravel road bonds are not properly indebtedness of the county—hence do not come within the inhibition of Section 13 of the Constitution. (See editoria in STATE AND CITY SUPPLEMENT for October, 1899, page 3.) In 1899 the State Supreme Court, in the case of Wilcoxon versus City of Bluffton, ruled that bonds issued by a city at the request of the School Trustees must be counted in determining whether the city is indebted to the constitutional limit of 2 per cent.

THIRD, counties (but no other kind of municipality) are prohibited from subscribing for any stock in a corporation unless paid for at time of such subscription. The section which covers this subject is section 6 of article 10, and is as follows.

Counties cannot take stock. No county shall subscribe for stock in any incorporated company unless the same be paid for at the time of such subscription; nor shall any county loan its credit to any incorporated company, nor borrow money for the purpose of taking stock in any such company; nor shall the General Assembly ever on behalf of the State assume the debts of any county, city, town or township, nor of any corporation whatever.

The prohibition which this section contains applies, as already stated, only to counties. Consequently the Legislature was at liberty to authorize cities to subscribe to the stock of railroads, as it did by a general law passed in 1867 granting the power to subscribe to the stock of any railroad running into or through any city or near its corporate limits. Other laws of a somewhat similar character have been passed at other dates. We notice one law too which authorizes counties bordering on the State line to subscribe for railroad stock and to issue bonds for the purpose of paying the subscription. In view of the above section this grant of power extended to counties would seem to be at least questionable.

COUNTIES are apparently restricted by statute to a lower than the Constitutional limit of 2 per cent in the matter of creating certain kinds of debt. For instance, Section 5749 of the Revised Statutes authorizes any county to issue bonds when necessary to construct, complete or epair court house, jail or other county buildings, or to fund existing debt; in those cases county commissioners may borrow for that purpose not exceeding 1 per cent on assessed valuation and issue bonds therefor.

Limit of one per cent may be exceeded in counties for funding purposes in certain cases where the aggregate indebtedness in 1879 exceeded one per cent (see Revised Statutes, Section 816); also for temporary loans (see Revised Statutes, Section 5818).

Also (if the laws that have been passed are constitutional), the limit *of 2 per cent* may be exceeded for the purpose of making gravel roads (see above), the Supreme Court having decided that gravel road bonds are not properly an indebtedness of the county.

In addition to the foregoing, general statutes have been passed by the Legislature granting general powers to cities and towns of fifteen thousand inhabitants or over to issue bonds for legitimate corporate purposes, subject, however, to the Constitutional limit of 2 per cent on valuation. But we have not the space to set out here the details, or the details of the other legislation applicable to cities of larger and smaller population, and covering specific purposes, such as water works, &c.

POPULATION OF STATE.—The population of Indiana has been as follows in the years named.

1897.....2,867,036	1860.....1,350,428	1830.....343,031
1890.....2,192,404	1850..... 988,416	1820.....147,178
1880.....1,978,301	1840..... 685,866	1810..... 24,520
1870.....1,680,637		

Between 1860 and 1870 the increase was 330,209, or 24·45 per cent, between 1870 and 1880 297,664, or 17·71 per cent, and between 1880 and 1890 214,103, or 10·82 per cent.

INDIANAPOLIS SCHOOL DISTRICT—FRANK L. REISSNER, Asst. Sec. Bd. of Sch. Com.

This district includes the whole of the city of Indianapolis and reports the same assessed valuation. In addition to the bonds below, $100,000 school bonds were sold on Jan. 31, 1900, but their issuance is being resisted in the courts at this date (April 9, 1900). It is claimed that the debt of city and school district should be added together in computing debt limit.

Legislature meets biennially in odd years on the Wednesday after the first Monday in January, and there is no limit to length of sessions.

HISTORY OF DEBT.—The historical details of the State debt of Illinois from 1829 to 1870, when the debt was all paid off, will be found in the State and City Supplement of April 1894, page 91.

BONDED DEBT.—This State had on January 1, 1900, no bonded debt, except $18,500 bonds which have ceased to draw interest, but have not yet been surrendered for payment.

EQUALIZED VALUATION.—The total equalized valuation has been as follows in the years named. The tax rate for 1899 was $4·20.

Years.	Equalized Val.	Years.	Equalized Val.	Years.	Equalized Val.

Under a law passed Feb. 25, 1898, there will be a general assessment of real estate but once in every four years instead of annually; personal property will be listed every year. The law also provides that property shall be appraised at full value but assessed at only one-fifth of such value.

DEBT LIMITATION.—No State has developed a greater repugnance to the creating of debt than Illinois, if we may judge from the provisions of its present Constitution. We say developed, because this antagonism has apparently been progressive. Nothing of it is to be found in the Constitution of 1818. The Constitution of 1848 contains no reference to municipalities, but has in it stringent restrictions limiting to $50,000 the power of the Legislature to create State debt, except in case of war, invasion, etc., unless the law proposing the issue of bonds is submitted to a vote of the people. But turning to the Constitution of 1870 we find the whole subject of debt-making most thoroughly considered and its basis settled.

FIRST, as to the State, the provisions are not very unlike the provisions of the Constitution of 1848, except that as to the limit for casual deficits and failures of revenue, the aggregate which can be created is very properly raised to $250,000. But with that exception and with the further exception for the purpose of repelling invasion etc. no debt can be contracted unless the law is submitted to a vote of the people at a general election, which law must contain a provision for the payment of interest as it accrues, and previous notice of the election be given by publication for three months prior to such election. These last two restrictions as to interest and notice of election are only found in the 1870 Constitution. The sections which cover these matters are as follows; we omit the first portion of Section 18, which relates only to appropriations and payment of appropriations out of funds belonging to the State:

Section 18. * * * * * *Provided*, the State may, to meet casual deficits or failures in revenues, contract debts never to exceed in the aggregate $250,000, and moneys thus borrowed shall be applied to the purpose for which they were obtained, or to pay the debt thus created, and to no other purpose; and no other debt except for the purpose of repelling invasion, suppressing insurrection or defending the State in war (for payment of which the faith of the State shall be pledged), shall be contracted, unless the law authorizing the same shall a general election have been submitted to the people, and have received a majority of the votes cast for members of the General Assembly at such election The General Assembly shall provide for the publication of said law for three months at least before the vote of the people shall be taken upon the same; and provision shall be made at the time for the payment of the interest annually as it shall accrue, by a tax levied for the purpose or from other sources of revenue; which law providing for the payment of such interest by such tax, shall be irrepealable until such debt be paid: *And provided further*, that the law levying the tax shall be submitted to the people with the law authorizing the debt to be contracted

Section 20. The State shall never pay, assume or become responsible for the debts or liabilities of, or in any manner give, loan, or extend its credit to or in aid of any public or other corporation, association or individual.

Nothing needs to be added in explanation of the foregoing. The provisions seem to be explicit and to guard most wisely the creation of State debt

SECOND, municipal indebtedness is regulated only in the Constitution of 1870. In that instrument the subject is dealt with in all its phases *First* is a provision in Article 8, Section 3, forbidding the General Assembly and every municipality from making any appropriation in aid of any sectarian purpose. *Second* is a "separate section" forbidding any such municipality from becoming a subscriber to the stock of any railroad, &c., or to loan its credit. *Third* is the board and general provision Section 12, Article 9, which limits the indebtedness of all municipalities to 5 per cent "on the value of the taxable property therein," &c We give these sections below:

Article 8, Section 3. Neither the General Assembly nor any county city, town, township, school district, or other public corporation, shall ever make any appropriation, or pay from any public fund whatever, anything in aid of any church or sectarian purpose, or to help support or sustain any school, academy, seminary, college, university, or other literary or scientific institution controlled by any church or sectarian denomination whatever; nor shall any grant or donation of land, money or other personal property ever be made by the State, or any such public corporation, to any church or for any sectarian purpose.

Article 9, Section 12. No county, city, township, school district or other municipal corporation shall be allowed to become indebted in any manner or for any purpose, to an amount, including existing indebtedness, in the aggregate exceeding five per centum on the value of the taxable property therein, to be ascertained by the last assessment for State and county taxes, previous to the incurring of such indebtedness. Any county, city, school district or other municipal corporation incurring any indebtedness as aforesaid shall before, or at the time of doing so, provide for the collection of a direct annual tax sufficient to pay the interest on such debt as it falls due, and also to pay and discharge the principal thereof within twenty years from the time of contracting the same. This section shall not be construed to prevent any county, city, township, school district, or other municipal corporation, from issuing their bonds in compliance with any vote of the people which may have been had prior to the adoption of this Constitution in pursuance of any law providing therefor.

Separate Sections. [Municipal subscriptions to railroads etc.] No county, city, town, township or other municipality shall ever become subscriber to the capital stock of any railroad or private corporation, or make donation to or loan its credit in aid of such corporation, *provided, however*, that the adoption of this article shall not be construed as affecting the right of any such municipality to make such subscriptions where the same have been authorized, under existing laws, by a vote of the people of such municipalities prior to such adoption.

The foregoing limitation to 5 per cent is general, as will be seen—that is, it applies to all municipalities. With this limitation preserved the Legislature has passed general laws authorizing the city council in cities and the board of trustees in villages to issue bonds for corporate purposes, for refunding and consolidating debt, for water works, etc.; and the county board of any county has been authorized by general statute to issue, when it deems it necessary, county bonds, after submitting the matter to the legal voters of the county at a general election, at which a majority vote is required as a prerequisite of the issue. Recently an attempt was made to limit "any county, city, township, school district or municipal corporation" in counties containing 125,000 or more inhabitants to 2½ per cent of the assessed value, but Jan. 12, 1900, the State Supreme Court ruled that this was an arbitrary

and unnatural classification of municipalities which could not be sustained. See Vol. 70, page 242.

IMPROVEMENT BONDS.—There is a kind of improvement bond authorized in some cases which is made a special lien on the land benefitted and to which the 5 per cent limit has no reference. We refer to cases which come under the law entitled "To divide cities and villages subject "to overflow into improvement districts." This statute provides that any such city or village or part thereof may be laid off into an improvement district for the purpose of draining, raising the grade of the streets and improving the district; that after the cost for the work has been ascertained and been assessed, the assessment may be paid in instalments or otherwise and such city or village may issue bonds sufficient to pay the assessment. In that case the bonds are a lien on the lots, blocks or parts thereof which shall be designated therein; but before the issue the owner of the lots, etc., to be charged must endorse upon the back of such bond his consent, under seal, in substance as follows: "I hereby indorse the within bond "and consent that the lot or lots or parts thereof therein designated "shall become liable for the interest and principal therein named and "the same shall be a lien upon said property from this date until paid "off and discharged." The bond when executed by the city or village and so endorsed by the owner shall be recorded in the recorder's office in the county, and such record shall be a notice of the lien created to the same extent as the record of mortgages is a notice.

We have room to give only this very brief and imperfect outline of this statute. The whole law will be found in the Revised Statutes of Illinois, the 1889 edition, page 303. To understand the real cause and occasion for all this machinery, one should study also the previous statute (page 99, &c.) which authorizes cities, &c., to protect themselves from overflow and inundation and control private levees, &c. After having read the two laws it will be found that the district improvement bond has been devised as a relief measure, and that it affords a wise and ingenious method for helping those in more moderate circumstances who have been taxed for a very necessary improvement to pay the tax by instalments.

POPULATION OF STATE.—The population of Illinois has been reported as follows in the years named.

PERRY COUNTY.—J. G. TAFFER, Clerk.

County seat is Pinckneyville.

The bonds below described are registered with the State Auditor. The United States Supreme Court has established the validity of Chester & Tamaroa railroad-aid bonds of this county and has declared the $100,000 B. & S. S. railroad-aid bonds invalid.

At the November (1899) election, a proposition to issue bonds to refund the Chester & Tamaroa bonds together with accrued interest, amounting in all to about $190,000, was voted upon and defeated. Since then the county has been mandamused to pay indebtedness to the amount of about $162,000 as follows: all interest due and accrued up to June 1, 1900, and 10% of principal to be paid in 1900. Interest and 15% of the remaining principal in 1901; interest and 20% of principal then remaining in 1902; interest and 25% outstanding principal in 1903; interest and 30% principal in 1904; interest and 50% principal in 1905, and the remaining amount due in 1906. Principal and accrued interest to the amount of about $30,000 has not yet at this date (Mar. 1, 1900) been put into judgments. The bond proposition may again be voted upon.

Legislature meets biennially in odd years the first Wednesday in January, and there is no limit to the length of sessions, excepting special sessions, in which the pay of members is limited to 20 days.

HISTORY OF DEBT.—The historical details of Michigan's State debt will be found in the STATE AND CITY SUPPLEMENT of April, 1894, page 98. In 1864 the State Treasurer reported the funded debt at $3,880,399, and $1,450,472 additional "Trust fund debt." The bonded debt July 1, 1899, consisted of $500,000 war loan bonds (1898) and $19,000 of "past-due part paid $5,000,000 loan bonds" adjustable at $578·57 per $1,000, amounting to $10,992·83, which have never been presented for payment and bear no interest. These latter bonds must be presented for payment prior to May 31, 1900, or be forfeited to the State. The "Trust fund debt" on the same date amounted to $6,120,003 56.

EQUALIZED VALUATION.—Since 1856 the equalized valuation has been determined only once in five years. The following shows the equalized valuation and tax rate for State purposes for every fifth year since 1846.

Year.	Equalized Val.	Tax Rate.	Year.	Equalized Val.	Tax Rate.
1896	$1,105,100,000	$1·41	1866	$307,965,843	$1·889
1891	1,130,000,000	1·277	1861	172,055,809	2·697
1886	945,450,000	1·272	1856	137,663,009	0·472
1881	810,000,000	1·411	1851	30,976,270	3·421
1876	630,000,000	1·144	1846	29,369,065	2·50
1871	630,000,000	1·201			

In 1896 the *assessed valuation* of real estate was $805,553,976; personal property, $140,455,965; total valuation, $946,009,941.

DEBT LIMITATION.—Michigan, as noted in our history of the State's debt, started its career as a State in January 1837, when the whole land was buoyant over its inflated enterprises carried on at public expense. So to be abreast with the times, instead of putting any limit on the power of the State to create debt, it put into its Constitution a notice to the Legislature to go to work at once and make provision for "ascertaining the proper objects of improvement in relation to roads, "canals and navigable waters," that the money might be raised and these improvements might be prosecuted with as little delay as possible.

That was the spirit which ruled and the condition which prevailed in 1837. In 1850 Michigan made and adopted another Constitution. During the years which intervened the people had gained a wide experience and had evidently profited by it. Hence we find them at the latter date showing a purpose to make an instrument in its financial features about as dissimilar from the one it was to supplant as it could well be. Nothing will illustrate this change in spirit and purpose more clearly than the following limitations respecting the creation of State indebtedness which were inserted. These sections are all found in article 14 of the 1850 Constitution, which Constitution is still in force.

SECTION 3. The State may contract debts to meet deficits in revenue. Such debts shall not in the aggregate at any one time exceed fifty thousand dollars. The moneys so raised shall be applied to the purposes for which they were obtained or to the payment of the debts so contracted.

SECTION 4. The State may contract debts to repel invasion, suppress insurrection or defend the State in time of war. The money arising from the contracting of such debts shall be applied to the purpose for which it was raised or to pay such debts.

SECTION 6. The credit of the State shall not be granted to or in aid of any person, association or corporation.

SECTION 7. No scrip, certificate, or other evidence of State indebtedness shall be issued except for the redemption of stock previously issued or for such debts as are expressly authorized in this Constitution.

SECTION 8. The State shall not subscribe to, or be interested in the stock of any company, association or corporation.

SECTION 9. The State shall not be a party to, or interested in, any work of internal improvement, nor engage in carrying on any such work except in the expenditure of grants to the State of land or other property.

The foregoing sections appear to cover every branch and phase of the subject; and compared with the Constitution of 1837 what a contrast they afford!

Cities and villages, however, were left by the 1850 instrument to the discretion of the Legislature in the matter of restrictions upon their borrowing power. The provision which relates to this subject is found in Article 15, Section 13, and is as follows:

SECTION 13.—The Legislature shall provide for the incorporation and organization of cities and villages, and shall restrict their powers of taxation, borrowing money, contracting debts and loaning their credit.

In the exercise of the power granted by this section the Legislature has passed general laws governing the incorporation, taxation and bonding of cities and villages. With regard to cities the chief provisions with respect to taxation and bond issues will be found in the second volume of the 1890 revision of Howell's Annotated Statutes of Michigan. Chapter 22, on "Finance and Taxation," pages 629 to 702, Sections 2693 to 2730. The sections which mainly cover these points are the following—we give the substance not the words of the section:—

Taxes, *And in what amount they can be laid,* are defined in Section 2697 to Section 2701.

Section 2697 provides that the maximum amount which the council may raise by general tax for all general purposes (except schools and school house purposes and except as otherwise provided below) shall not exceed in any one year –

In cities having a population not over 6,000 .....1¼ per cent
In cities larger than 6,000 but not over 9,000.....1½ per cent
In cities larger than 9,000 but not over 14,000.....1¾ per cent
In cities having more population than 14,000.....2 per cent

SECTION 2698 provides that the council may also raise in each street district not exceeding one fourth of one per cent.

SECTION 2699 provides that in addition to above the council may raise by special assessment in sewer and in special assessment districts for improving streets and constructing sewers (chargeable on lands in district according to frontage or benefits) not exceeding in one year 5 per cent.

SECTION 2700 provides that a tax of not more than two dollars per year may be levied upon each lot or premises drained by a private sewer or drain leading into a public sewer or drain.

SECTION 2701 provides that the council may also raise such further sum, not exceeding three mills on the dollar of assessed valuation, as may be necessary to provide an interest and sinking fund to pay funded debt.

Loans, *When allowed and amount indicated.*

SECTION 2,709. Provides that no public work shall be contracted or commenced until a tax shall have been levied to pay cost.

SECTION 2,710. Instead of levying a tax for whole amount authorized by this act in any year for the general and street district funds, the council may raise part by tax and part by loan—the aggregate of both not exceeding amount for which tax might have been levied in the year.

SECTION 2,711. Council also authorized to raise moneys by loan in anticipation of receipts from special assessments.

SECTION 2,712. If any greater amount is required for erecting public buildings, or for purchase of ground for same, or for other public improvements or purposes than can be raised by the council under the foregoing provisions, such amount may be raised by tax or loan or partly by tax and partly by loan *if authorized by a majority vote of the electors voting upon* the question at an annual city election. The amount that may be so raised in any year shall not exceed two per cent of assessed valuation.

SECTION 2,713. The proposition to raise such additional amount must be submitted by an ordinance distinctly stating the purpose of proposed expenditure, the amount proposed, and whether to be raised by tax or loan. Such ordinance shall be passed, published in one newspaper of city, and copies posted in five most public places in each ward of city, at least two weeks before the election—vote shall be by ballot.

SECTION 2,717. No loans made exceeding amounts prescribed in this act. For loans lawfully made bonds of the city may be issued bearing a legal rate of interest. Record to be kept by city clerk. When deemed necessary by council new bonds may be issued in place of former bonds falling due. Each bond shall show upon its face the class of indebtedness to which it belongs and from what fund payable.

The foregoing provisions apply to cities. The law relating to villages with reference to the same subject is so nearly of a like character as not to need reciting.

POPULATION OF STATE.—The population of Michigan has been as follows in the years named:

1894	2,241,000	1860	749,113	1830	31,639

Admitted as a State (Act. Aug. 6, 1846) - May 29th, 1848
Total area of State (square miles) - - - - 56,040
State Capital - - - - - - - - - Madison
Governor (term expires 1st Monday in Jan.1901), Edw. Scofield
Secretary of State (1st Mon. Jan. 1901), - W. H Froehlich
Treasurer (1st Monday Jan. 1901) - - - J. O. Davidson

Legislature meets bi-ennially in odd years on the second Wednesday in January, and there is no limit to length of sessions.

HISTORY OF DEBT. For a brief history of the Wisconsin debt see STATE AND CITY SUPPLEMENT of April, 1895.

At present the State has no indebtedness except the trust funds, as follows:

Certificates of indebtedness,		School Fund	$1,563,700
Do	do	Normal School Fund	515,700
Do	do	University Fund	111,000
Do	do	Agricultural College Fund	60,600
Total			$2,251,000

DEBT LIMITATION.—The constitutional provisions of Wisconsin restricting debt-making are very rigorous, plain and comprehensive. Since the amendment adopted in 1874, cities &c., as well as the State, are definitely limited by that instrument. We will give the provisions first which relate to the State and after that those which have reference to cities, &c.

(1) *STATE indebtedness is confined within* very close bounds. It seems as if the framers of the Constitution must have taxed to the extreme their ingenuity for forms in which to express their determination to inhibit debt-making. The sections which cover the subject are sections 3, 4, 6, 7, 9 and 10 of Article 8. We give them in full below.

SECTION 3. *Credit of State, for what not given.* The credit of the State shall never be given or loaned in aid of any individual, association or corporation.

SECTION 4. *Contracting debts.* The State shall never contract any public debt, except in the cases and manner herein provided.

SECTION 6. *Limitation on public debt.* For the purpose of defraying extraordinary expenditures, the State may contract public debts (but such debts shall never in the aggregate exceed one hundred thousand dollars). Every such debt shall be authorized by law, for some purpose or purposes to be distinctly specified therein; and the vote of a majority of all the members elected to each House, to be taken by yeas and nays, shall be necessary to the passage of such law; and every such law shall provide for levying an annual tax sufficient to pay the annual interest of such debt, and the principal within five years from the passage of such law, and shall specially appropriate the proceeds of such taxes to the payment of such principal and interest; and such appropriation shall not be repealed, nor the taxes be postponed, or diminished, until the principal and interest of such debt shall have been wholly paid.

SECTION 7. *State may borrow money, when.* The Legislature may also borrow money to repel invasion, suppress insurrection or defend the State in time of war; but the money thus raised shall be applied exclusively to the object for which the loan was authorized, or to the repayment of the debt thereby created.

SECTION 9. *Evidences of debt.* No scrip, certificate, or other evidence of State debt, whatsoever, shall be issued, except for such debts as are authorized by the sixth and seventh sections of this article.

SECTION 10. *Internal improvements—avails of grants.* The State shall never contract any debt for works of internal improvement, or be a party in carrying on such works, but whenever grants of land or other property shall have been made to the State, especially dedicated by the grant to particular works of internal improvement, the State may carry on such particular works, and shall devote thereto the avails of such grants, and may pledge or appropriate the revenues derived from such works in aid of their completion.

(2) *CITIES, counties, towns, villages, &c.*, were unrestricted except by legislative enactment until 1874. Since that amendment was adopted *five per cent* on the value of the taxable property has been the extreme amount of debt permissible for any municipality. Not only is that the case, but, as will be seen, the municipality is required before or at the time when it incurs any indebtedness, to make provision for an annual tax sufficient to pay the interest and also sufficient to pay the principal within twenty years from the time of contracting the debt. We give below the amendment referred to in full.

Limitation of Municipal Indebtedness—Adding to Section 3, Article 11, the words:

No county, city, town, village, school district, or other municipal corporation, shall be allowed to become indebted in any manner or for any purpose, to any amount, including existing indebtedness in the aggregate exceeding five per centum on the value of the taxable property therein, to be ascertained by the last assessment for State and county taxes previous to the incurring of such indebtedness. Any county, city, town, village, school district, or other municipal corporation incurring any indebtedness, as aforesaid, shall before or at the time of doing so provide for the collection of a direct annual tax sufficient to pay the interest on such debt as it falls due, and also to pay and discharge the principal thereof within twenty years from the time of contracting the same.

On April 20, 1893, a new law passed by the Legislature of Wisconsin was approved by the Governor which gives general authority for the issuance of bonds to cities operating under special charters granted by the State, and containing a population of three thousand or more inhabitants, as follows. *This authority is of course subject to the foregoing provisions of the Constitution.*

For the erection and construction of a city hall and the purchase of a site for the same.

For the construction and extension of water works or the purchase of the same, and for constructing sewers, and for the improvement and maintenance of the same.

For the erection, construction and completion of school buildings and the purchase of school sites.

For the purchase of sites for engine houses, for fire engines and other equipments of the fire department, and for the construction of engine houses.

For the purchase of sites for police stations and for the construction if buildings thereon for the use of the police department.

For the construction of viaducts, bridges, and for repairs of the same.

For the erection and construction of library and museum buildings and the purchase of sites for the same.

For the establishment of public baths and hospitals and the purchase of sites for the same.

For the purchase of lands for public parks and improvements thereof and for the payment of purchase money and interest thereon which may be or become due for park lands already acquired or contracted for.

For permanently improving streets in such city, and for creating a fund out of which to advance the cost of repairs to sidewalks in anticipation of the collection of special assessments for such cost of repairs by the Treasurer of such city.

For the construction or purchase of electric or gas light plants for lighting streets and public buildings.

For refunding existing indebtedness.

The law further provides that bonds issued under this act shall bear interest, payable annually or semi-annually, at a rate not exceeding 6 per cent per annum; that the Common Council shall annually levy a tax upon all the taxable property sufficient to pay the annual interest thereon, and to provide a sinking fund each year equal to 5 per cent on the principal of said bonds; that no bonds shall be issued so that the amount thereof, together with all the other indebtedness of the city, shall exceed 5 per cent of the assessed valuation of the city and also that the bonds *shall show on their face the amount of indebtedness* of the city issuing the same, the annual amount of the assessment of the taxable property therein for the five years next preceding the issue, and the average amount there of, and they shall not be sold for less than their par value and accrued interest.

No system could be devised better adapted for keeping municipal debt at a minimum than the foregoing amendment establishes.

ASSESSED VALUATION.—The total assessed valuation of the State, as determined by the State Board of Assessors, and the tax rate for State purposes, have been as follows for the years named below:

Besides the State tax of $1·70 for 1899 there is a tax of $1·23 for school and university purposes.

DEBT LIMITATION.—Minnesota has protected the State from extravagant expenditures through restrictions which its Constitution puts on every kind of debt making. That instrument fixes the limit at $250,000 "for the purpose of defraying extraordinary expenditures;" and an amendment, ratified in 1879, extended this power to $250,000 additional "for erecting and completing buildings for the insane, a deaf, dumb and blind asylum, and State prison." Besides the foregoing, it is also provided that the State credit shall not be loaned, &c. With regard to the debt of municipalities there is but one section in the Constitution which relates to that subject, and that has reference to making railroad debt.

FIRST, as to State indebtedness, the sections which treat of the subject are in article 9, sections 5, 6, 7, 8 and 14.

SECTION 5. *(Public debt may be contracted.)* For the purpose of defraying extraordinary expenditures, the State may contract public debts, but such debts shall never, in the aggregate, exceed two hundred and fifty thousand dollars; every such debt shall be authorized by law for some single object, to be distinctly specified therein; and no such law shall take effect until it shall have been passed by the vote of two-thirds of the members of each branch of the Legislature, to be recorded by the yeas and nays on the journals of each House, respectively; and every such law shall levy a tax, annually, sufficient to pay the annual interest of such debt, and also a tax sufficient to pay the principal of such debt within ten years from the final passage of such law, and shall specially appropriate the proceeds of such taxes to the payment of such principal and interest; and such appropriation and taxes shall not be repealed, postponed, or diminished, until the principal and interest of such debt shall have been wholly paid. The State shall never contract any debts for works of internal improvement, or be a party in carrying on such works, except in cases where grants of land or other property shall have been made to the State, especially dedicated by the grant to specific purposes; and in such cases the State shall devote thereto the avails of such grants, and may pledge or appropriate the revenues derived from such works in aid of their completion.

SECTION 6.—*(Public debt how contracted.)* All debts authorized by the preceding section shall be contracted by loan on State bonds of amounts not less than five hundred dollars each, on interest, payable within ten years after the final passage of the law authorizing such debt; and such bonds shall not be sold by the State under par. A correct registry of all such bonds shall be kept by the Treasurer in numerical order, so as always to exhibit the number and amount unpaid and to whom severally made payable.

SECTION 7.—The State shall never contract any public debt, unless in time of war, to repel invasion or suppress insurrection, except in the cases and in the manner provided in the fifth and sixth sections of this article.

SECTION 8.—*(Appropriation of money received from loan or State bonds.)* The money arising from any loan made, or debt or liability contracted, shall be applied to the object specified in the act authorizing such debt or liability, or to the repayment of such debt or liability, and to no other purpose whatever.

SECTION 14.—*(State debt for public buildings).* For the purpose of erecting and completing buildings for a hospital for the insane, a deaf, dumb and blind asylum, and State prison, the Legislature may by law increase the public debt of the State to an amount not exceeding two hundred and fifty thousand dollars, in addition to the public debt already heretofore authorized by the Constitution, and for that purpose may provide by law for issuing and negotiating the bonds of the State and appropriate the money only for the purpose aforesaid; which bonds shall be payable in not less than ten nor more than thirty years from the date of the same, at the option of the State.

SECOND, as to city, county or other municipality the only restriction on the debt-making power in the Constitution is the following, found in article 9, section 15.

SECTION 14.—*(Municipal debts in aid of railroads.)* The Legislature shall not authorize any county, township, city or other municipal corporation to issue bonds or to become indebted in any manner to aid in the construction or equipment of any or all railroads to an amount that shall exceed five per centum of the value of the taxable property within such county, township, city, or other municipal corporation; the amount of such taxable property to be ascertained and determined by the last assessment of said property made for the purpose of State and county taxation previous to the incurring of such indebtedness.

The foregoing was adopted as an amendment in 1879. Before its adoption the section read so as to authorize municipal corporations to issue bonds in aid of railroads to *ten per cent* of valuation. Hence the amendment consisted in simply changing the word *ten* and making it *five.*

This is all the Constitution contains with reference to the debts of municipalities. The Legislature, however, has made some general provisions governing bond issues, which will be found in the STATE AND CITY SUPPLEMENT for October, 1899, and in previous numbers of that publication.

TOTAL DEBT, Etc.—The subjoined statement shows Duluth's total bonded and total floating debt on each of the dates named.

	Aug. 1, '99.	*Apr.* 1, '98.	*Feb.* 15, '97.	*Feb.* 10, '96.
†Total bonded debt	$2,100,250	$2,055,250	$1,942,250	$1,917,250
Floating debt	589,603	*666,423	763,606	1,135,552

* Includes $138,949 of special assessment certificates.
†Not including water debt, which amounted Aug. 1, 99, to $2,356,000. The city had a sinking fund on Aug. 1, 1899, of $106,537.
The $138,250 of 6 per cent refunding bonds are not strictly a liability of the city, as they were issued by the village of Duluth under a special Act of the Legislature which provides that the County Commissioners of St. Louis County shall levy a special tax to pay the interest on them and provide a sinking fund to meet them at maturity.

ASSESSED VALUATION.—The city's assessed valuation (estimated at 50 per cent of actual value) and tax rate have been as follows:

Water debt (incl.)	$1,770,000	$1,830,000	$1,830,000	$1,430,000

SINKING FUND.—It is provided by the city's charter that in addition to raising a tax sufficient to pay the interest on all its bonds the city shall levy a tax of one mill on each dollar of the assessed valuation to provide for the principal of the bonds when due. The maintenance of this sinking fund for the payment of the principal of the bonds is "declared to be part of the contract with the holder of any bonds of the city that may hereafter be issued and shall be kept inviolate." In accordance with this provision there was raised by taxation for the sinking fund in 1899 $120,499. The sinking fund is invested in city of Minneapolis 4 and 4½ per cent bonds.

BOND LIMIT.—The city of Minneapolis is restricted in all legislative acts authorizing the issue and sale of bonds, and is required to keep within the following limit: From the total issue of all city bonds shall be deducted the total amount of funds and securities in the sinking fund, and this balance shall not exceed 5 per cent of the aggregate value of the taxable property of the city as assessed and determined for the purpose of taxation.

WATER RECEIPTS.—The receipts from water in 1899 were $259,377; current expenses for water works, $190,904.

VALUATION AND INDEBTEDNESS.—The city's assessed valuation (property being assessed about ½ of its actual value) tax rate and bonded debt have been as follows on December 31 of the years given:

Years.	*Tax Valuation.*	*Tax Rate, per* $1,000.	*Total Bonded Debt.*
1899	$106,729,265	$26 15	$8,415,000
1898	107,227,385	23 00	8,315,000
1897	109,654,337	25 00	8,215,000
1896	109,316,247	23 25	7,840,000
1890	136,944,372	19 30	7,080,500

HISTORY OF DEBT.—For history of Iowa's debt see STATE AND CITY SUPPLEMENT of April 1894, page 110.

TOTAL DEBT.—Iowa has a bonded debt of only $10,900. On July 1, 1899, there were no warrants outstanding and the State had cash on hand amounting to $445,002 and a claim on the United States Government for war expenses amounting to $51,000.

EQUALIZED VALUATION.—The equalized assessed valuation has been as follows in the years named:—

TAX RATE.—The State tax (per $1,000) for 1899 was $2·90.

DEBT LIMITATION.—Iowa's Constitution restricts the creating of debt, both State debt and municipal debt.

FIRST, as to State debt, the limitation made is not absolute, for it permits other debt if authorized by some law for some single specified work. But this permission is very safely guarded—(1) the law must provide for the collection of a direct annual tax sufficient to pay the interest regularly and discharge the debt in twenty years; and (2) the law cannot take effect until it has been submitted to the people at a general election, and has received a majority of the votes cast. All the debt provisions relating to the State we give below.

ARTICLE 7, Section 1. [*Limitation of State indebtedness.*] The credit of the State shall not in any manner be given or loaned to, or in aid of, any individual, association, or corporation; and the State shall never assume, or become responsible for, the debts or liabilities of any individual, association or corporation, unless incurred in time of war for the benefit of the State.

SECTION 2. [*Same.*] The State may contract debts to supply casual deficits or failures in revenues, or to meet expenses otherwise provided for; but the aggregate amount of such debts, direct and contingent, whether contracted by virtue of one or more acts of the General Assembly or at different periods of time, shall never exceed the sum of two hundred and fifty thousand dollars; and the money arising from the creation of such debts shall be applied to the purpose for which it was obtained, or to repay the debts so contracted, and to no other purpose whatever.

SECTION 4. [*For what other purposes State may contract debt.*] In addition to the above limited power to contract debts, the State may contract debts to repel invasion, suppress insurrection, or defend the State in war; but the money arising from the debts so contracted shall be applied for the purpose for which it was raised, or to repay such debts, and to no other purpose whatever.

SECTION 5. [*Other debts to be authorized.*]—Except the debts hereinbefore specified in this article, no debt shall be hereafter contracted by or on behalf of this State, unless such debt shall be authorized by some law for some single work or object, to be distinctly specified therein; and such law shall impose and provide for the collection of a direct annual tax sufficient to pay the interest on such debt as it falls due, and also to pay and discharge the principal of such debt within twenty years from the time of contracting thereof; but no such law shall take effect until at a general election it shall have been submitted to the people, and have received a majority of all the votes cast for and against it at such election; and all money raised by authority of such law shall be applied only to the specific object therein stated, or to the payment of the debt created thereby; and such law shall be published in at least one newspaper in each county, if one is published therein, throughout the State, for three months preceding the election at which it is submitted to the people.

ARTICLE VIII, Section 3. [*State not to be a stockholder.*]—The State shall not become a stockholder in any corporation, nor shall it assume or pay the debt or liability of any corporation, unless incurred in time of war for the benefit of the State.

There can be but little fear that a State or city will ever create debt in any larger amount than it can easily pay where the law, as in the above case, requires a tax to be levied at the time of its creation sufficient to pay the interest annually and the principal when due.

SECOND, as to municipal indebtedness, the limit is fixed absolutely in the Constitution. The provisions covering the subject are as follows:

ARTICLE VIII, Section 4. [*Corporation not to be a stockholder.*] No political or municipal corporation shall become a stockholder in any banking corporation, directly or indirectly.

ARTICLE XI, Section 3. [*To what amount county may become indebted.*] No county or other political or municipal corporation shall be allowed to become indebted in any manner, or for any purpose, to an amount in the aggregate exceeding five per centum on the value of the taxable property within such county or corporation—to be ascertained by the last State and county tax list previous to the incurring of such indebtedness.

The above (section 3 of article XI) covers cities, counties, towns and every other kind of political or municipal corporation. The Supreme Court of Iowa has decided that even a school district is such a corporation and subject to the 5 per cent limit. [A bill is now (April 1, 1900), under consideration in the Legislature which fixes the limit of indebtedness of municipalities at only 1¼ per cent of the actual value of property in cities or towns as returned by the last tax list. This change is proposed because, under a revision of the Revenue Law made in 1898, property is now listed for taxation on a much higher basis than formerly.]

POPULATION OF STATE.—The population of Iowa has been as follows in the years named:

1895	2,058,069	1870	1,194,020	1850	192,214
1890	1,911,896	1860	674.913	1840	43,112

6s, M&N, $160,000	Nov. 1, 1902

INTEREST on bonds is payable in New York at Chemical National Bank and in Burlington.

BONDED DEBT on April 1, 1899, was $223,000; floating debt. $79,800; total debt, $302,800; sinking fund, $14,200; net debt, $288,600. The water bonds are not included in the total funded debt, as they are the obligations of a private company. The city, however, in return for use of water agrees to pay the interest on these bonds directly to the bondholder, and to pay $2,000 yearly to a sinking fund for their redemption.

ASSESSED VALUATION in 1898 of real estate was $2,913,261; personal property, $966,838; total, $3,880,099; total tax rate (per $1,000) in 1898 was $69·00, including State tax, $3·30, county tax, $6·00; city tax, $37·00; school tax, $22·70. In the water district, which includes about one-half the city, the water tax (per $1,000) is $50·00. Property is assessed at "about 25 per cent of its actual value."

POPULATION in 1890 was 22,565; in 1880 it was 19,450; in 1899 (estimated), 30,000.

TOTAL DEBT, ETC.—

	March 1, 1899.	March 1, 1898.	March 1, 1897.
Total bonded debt under 5 p. c. limit.	$61,400	$101,400	$101,400
Special bonds	223,000	223,000	262,000
Special assessment bonds	44,900	74,100	101,500
Bonded debt	$329,300	$398,500	$464,900

The special assessment bonds are secured by property certificates issued and held in trust for bondholders.

In addition to the bonded debt the city had outstanding on March 1, 1899, general fund warrants to the amount of $141,056; water fund warrants to the amount of $76,875, and special fund warrants to the amount of $4,768. For the purpose of funding the warrants the City Council has authorized the issuance of $150,000 bonds. The issuance of these bonds has been prevented by litigation, a decision handed down in 1899 by Judge Towner declaring that the general city bonds, and the intersection, sewer, grading and paving bonds constitute the indebtedness of the city; hence that the city was in excess of its debt limit. See Chronicle, March 25, 1899. Judge Smith, however, in the District Court on October 7, 1899, held that the city of Council Bluffs had the legal right under and by virtue of Section 905 of the Code of Iowa to issue its bonds and *exchange* them for the outstanding general and water fund warrants of said city issued during the fiscal years of 1896, 1897 and 1898, provided said bonds when so issued are *actually exchanged* for said warrants by mutual exchange.—See V. 69, p. 817. A tax levy of $5·00 (per $1,000) is made each year for water purposes.

The sinking funds accumulated on the straight city bonds on March 1, 1899, amounted to $2,843, and on the inter-section improvement bonds to $24,748, and on the warrants $53,905, making a total of $81,496.

ASSESSED VALUATION.—The city's assessed valuation has been as given below in the years named. The noticeable decrease in 1899 is due to a change in the law. Property was formerly assessed at from 30 to 40 per cent of its value, but under the new law all real estate is assessed at 25 per cent of its actual value.

Years.	Real Estate.	Personal Property.	Railroads.	Total.

Legislature meets biennially in odd years on the first Wednesday after the first Monday of January, and there is no limit to length of sessions; but after the first seventy days members can draw only a dollar a day for their services, except every tenth year, when the statutes are revised, at which session members are allowed $5·00 per day for 120 days. A session of this kind was held in 1899.

HISTORY OF DEBT.—The interesting details of Missouri's eventful history in debt-making and debt-paying will be found on page 111 of the STATE AND CITY SUPPLEMENT for April, 1893. The details of the debt on Jan 1, 1899, were as follows:

DEBT LIMITATION.—Missouri has made provision in its Constitution restricting the creation of debt both on behalf of the State and of its municipalities.

FIRST, with respect to the State, the regulations are full and specific. They are found in article 4, sections 44, 45 and 46, which we subjoin.

ARTICLE 4, Section 44. *(General Assembly not to contract debts except as herein.)* The General Assembly shall have no power to contract or to authorize the contracting of any debt or liability on behalf of the State, or to issue bonds or other evidences of indebtedness thereof, except in the following cases:

First, In renewal of existing bonds, when they cannot be paid at maturity out of the sinking fund or other resources.

Second, on the occurring of an unforeseen emergency, or casual deficiency of the revenue, when the temporary liability incurred, upon the recommendation of the Governor first had, shall not exceed the sum of two hundred and fifty thousand dollars for any one year, to be paid in not more than two years from and after its creation.

Third, on the occurring of any unforeseen emergency, or casual deficiency of the revenue, when the temporary liability incurred or to be incurred shall exceed the sum of two hundred and fifty thousand dollars for any one year, the General Assembly may submit an act providing for the loan, or for the contracting of the liability, and containing a provision for levying a tax sufficient to pay the interest and principal when they become due (the latter in not more than thirteen years from the date of its creation), to the qualified voters of the State, and when the act so submitted shall have been ratified by a two-thirds majority, at an election held for that purpose, due publication having been made of the provisions of the act for at least three months before such election, the act thus ratified shall be irrepealable until the debt thereby incurred shall be paid, principal and interest.

SECTION 45. *(State's credit not to be loaned.)* The General Assembly shall have no power to give or to lend, or to authorize the giving or lending of the credit of the State in aid of or to any person, association or corporation, whether municipal or other, or to pledge the credit of the State in any manner whatsoever, for the payment of the liabilities, present or prospective, of any individual, association of individuals, municipal or other corporation whatsoever.

SECTION 46. *(Public money, grant of prohibited.)* The General Assembly shall have no power to make any grant, or to authorize the making of any grant of public money or thing of value to any individual, association of individuals, municipal or other corporation whatsoever. *Provided*, That this shall not be so construed as to prevent the grant of aid in a case of public calamity.

The foregoing sections cover all phases of State indebtedness and so restrict action as to put the State beyond the chance of future debt embarrassment.

SECOND, with regard to cities and other municipalities, the provisions are in like manner full and wisely constructed. There are three—section 47 in article 4, section 6 in article 9 and section 12 in article 10. We give them complete below.

ARTICLE 4, Section 47. *(Municipalities, loaning credit of.)* The General Assembly shall have no power to authorize any county, city, town or township, or other political corporation or sub-division of the State now existing, or that may be hereafter established, to lend its credit, or to grant public money or thing of value in aid of or to any individual, association or corporation whatsoever, or to become a stockholder in such corporation, association or company.

ARTICLE 9, Section 6. *(Municipalities not to subscribe to capital stock of corporations.)* No county, township, city or other municipality shall hereafter become a subscriber to the capital stock of any railroad or other corporation or association, or make appropriation or donation, or loan its credit to or in aid of any such corporation or association, or to or in aid of any college or institution of learning or other institution, whether created for or to be controlled by the State or others. All authority heretofore conferred for any of the purposes aforesaid by the General Assembly, or by the charter of any corporation, is hereby repealed: *Provided, however,* That nothing in this Constitution contained shall affect the right of any such municipality to make such subscription where the same has been authorized under existing laws by a vote of the people of such municipality prior to its adoption, or to prevent the issue of renewal bonds, or the use of such other means as are or may be prescribed by law for the liquidation or payment of such subscription, or of any existing indebtedness.

ARTICLE 10, Section 12. *(Municipal indebtedness, limit of.)* No county, city, town, township, school district or other political corporation or sub-division of the State shall be allowed to become indebted in any manner or for any purpose to an amount exceeding in any year the income and revenue provided for such year, without the assent of two-thirds of the voters thereof voting at an election to be held for that purpose; nor in cases requiring such assent shall any indebtedness be allowed to be incurred to an amount, including existing indebtedness, in the aggregate exceeding five per centum on the value of the taxable property therein, to be ascertained by the assessment next before the last assessment for State and county purposes, previous to the incurring of such indebtedness: *Provided,* That with such assent any county may be allowed to become indebted to a larger amount for the erection of a court-house or jail. *And provided further,* That any county, city, town, township, school district, or other political corporation or sub-division of the State, incurring any indebtedness, requiring the assent of the voters as aforesaid, shall, before or at the time of doing so, provide for the collection of an annual tax sufficient to pay the interest on such indebtedness as it falls due, and also to constitute a sinking fund for payment of the principal thereof, within twenty years from the time of contracting the same.

It is scarcely necessary to add anything to the foregoing. The sections given make clear (1) that a municipality cannot loan its credit; (2) that it cannot subscribe to the capital stock of corporations; (3) that it cannot get into debt unless two-thirds of the voters voting at an election favor it, and then only to an aggregate of 5 per cent of valuation, *except* that with such assent any county may be allowed to become indebted in a larger amount for the erection of a court house or jail, and finally (4) that before or at the time of getting the assent of the voters an annual tax must be provided sufficient to pay interest and form a sinking fund to pay the debt within 20 years. These provisions are certainly very conservative.

TOTAL DEBT, SINKING FUNDS, ETC.—

	Feb. 1, 1900.	Aug. 1, '99.	Feb. 1, '99.	Aug. 15, '98.
Total bonded debt	$3,718,900	$3,727,900	$3,727,900	$3,767,900
Sinking funds	343,000	312,900	228,497	227,900
Net debt	$3,375,900	$3,415,000	$3,499,503	$3,540,000

The figures of total debt include the water debt, amounting in 1900 to $3,062,000.

The city has no floating debt and the surplus income received by it from the water works, after paying all operating expenses and the annual interest on the entire city debt, is now about $152,000.

A sinking fund is provided by the laws of Missouri calculated to extinguish the total debt of the city in about 20 years without reducing the amount appropriated for current expenses and improvements and without increasing taxation.

ASSESSED VALUATION.—The city's assessed valuation and tax rate have been as follows:

Year.	Real Estate.	Personal Property.	Merchants, Banks, etc.	Total	*City Tax per $1,000.
1899	$52,709,790	$13,709,665	$4,642,690	$71,062,145	$12·00

GOLD BONDS.—All the city's bonds are payable, principal and interest, in gold, except the $245,000 6s issued for purchase of Block 121.

INTEREST on all bonds is payable in New York City—on the Purchase of Block 121 6s, at the National Bank of the Republic; on the Park bonds at the National Bank of Commerce. Interest on the bonds payable in £ sterling, on those maturing in 1912, 1914 and 1915 and on the 3½s of 1909 and 1918, is payable at the National Bank of Commerce, New York, or at the National Bank of Scotland (Limited), London, at the rate of $4·8665 per pound sterling. Interest on all other bonds is payable at the National Bank of Commerce, N. Y., or at the office of J. S. Morgan & Co., London, at the option of the holder.

TOTAL DEBT, SINKING FUNDS, Etc.—The subjoined statement shows St. Louis's total municipal debt and the water debt, &c.

	Jan. 2, 1900.	April 10, 1899.	April 13, 1896.
Total bonded debt	$18,916,278	$19,392,278	$20,647,711
Water, debt included	5,808,000	5,808,000	5,808,000

Note.—Under the charter the Municipal Assembly must appropriate $1,200,000 annually with which to pay debt and the interest thereon. That portion of each annual appropriation not required for the payment of the interest constitutes the sinking fund for redemption of the debt existing April 7, 1890, and bonds issued in renewal thereof. On the basis of renewing the city's bonded debt at 4 per cent, the debt for which this sinking fund was established will be extinguished in 1927.

CITY PROPERTY.—The city owns its water works, the revenue from which for water rates, permits, etc., for the fiscal year 1898-99 was $1,379,361 and net operating expenses and cost of collecting water rates were $521,250. In addition to the water works the city owns its hospitals, insane asylums and poor house, city hall, court house, jail, house of correction and work house, engine houses, markets, police stations, parks, etc.

ASSESSED VALUATION.—The city's assessed valuation (about 3-5 cash value) and tax rate have been as follows:

TAX RATE.—In 1899 the tax rate (per $1,000) was $2·20.

DEBT LIMITATION.—South Dakota has incorporated into its Constitution very stringent provisions limiting the debt-making power of the State and its municipalities. All these provisions are found in Article XIII., and are as follows.

Section 1. Neither the State nor any county, township or municipality shall loan or give its credit or make donation to or in aid of any individual, association or corporation, except for the necessary support of the poor, nor subscribe to or become the owner of the capital stock of any association or corporation, nor pay or become responsible for the debt or liability of any individual, association or corporation; provided, that the State may assume or pay such debt or liability when incurred in time of war for the defense of the State. Nor shall the State engage in any work of internal improvement.

Sec. 2. For the purpose of defraying extraordinary expenses and making public improvements, or to meet casual deficits or failure in revenue, the State may contract debts never to exceed with previous debts in the aggregate $100,000, and no greater indebtedness shall be incurred except for the purpose of repelling invasion, suppressing insurrection, or defending the State or the United States in war, and provision shall be made by law for the payment of the interest annually, and the principal when due, by tax levied for the purpose, or from other sources of revenue; which law providing for the payment of such interest and principal by such tax tax or otherwise shall be irrepealable until such debt is paid; provided, however, the State of South Dakota shall have the power to refund the Territorial debt assumed by the State of South Dakota by bonds of the State of South Dakota.

Sec. 3. That the indebtedness of the State of South Dakota, limited by section 2 of this article, shall be in addition to the debt of the Territory of Dakota, assumed by and agreed to be paid by South Dakota.

Sec. 4. The debt of any county, city, town, school district, or other subdivision, shall never exceed *five per centum* upon the assessed value of the taxable property therein. In estimating the amount of indebtedness which a municipality or subdivision may incur, the amount of indebtedness contracted prior to the adoption of this Constitution shall be included.

Sec. 5. Any city, county, town, school district or any other subdivision incurring indebtedness shall, at or before the time of so doing, provide for the collection of an annual tax sufficient to pay the interest and also the principal thereof when due, and all laws or ordinances providing for the payment of the interest or principal of any debt shall be irrepealable until such debt be paid.

POPULATION OF STATE.—The population of South Dakota has been reported as follows in the years named.

DEBT LIMITATION.—Nebraska has carefully provided in its Constitution against creating State indebtedness, but has left city and other municipal indebtedness chiefly in the care of the Legislature.

STATE indebtedness is restricted to $100,000 to meet casual deficits in revenues, except in case of invasions, &c., while the loaning by the State of its credit is prohibited. The sections of the Constitution which have reference to these matters will be found in the STATE AND CITY SUPPLEMENT of April, 1895, pages 124 and 125.

POPULATION OF STATE.—The population of Nebraska has been as follows in the years named:

1890	1,058,910	1870	122,993
1880	452,402	1860	28,841

CITIES, COUNTIES AND TOWNS IN THE STATE OF NEBRASKA.

INCIDENTS IN STATE ORGANIZATION, ETC.—See STATE AND CITY SUPPLEMENT of April, 1893, page 124, for the facts and statements heretofore given under this head.

HISTORY OF DEBT.—When Kansas was admitted into the Union as a State (in 1861) it had a bonded debt of $150,000. The Constitution of 1859 limited the debt-making power to one million dollars (with certain restrictions and exceptions), as more fully described below. In 1866 the bonded debt was $630,775, of which the State owned $28,650. In 1878 the total bonded debt was $1,181,975, of which the State owned $713,600. The bonded debt Sept. 1, 1898, was $632,000, all held by State funds. At present the debt is:

DEBT LIMITATION,—Kansas has by its Constitution given the State power to contract public debts for the purpose of defraying extraordinary expenses and making public improvements in an amount not to exceed $1,000,000. This limit, however, has two exceptions. *First*, the next section provides that it may be exceeded if the proposed law for creating such debt shall be submitted to a vote of the electors, and if the proposed law be ratified by a majority of the votes cast. *Second*, the section following provides that the State may borrow money to repel invasion, &c. We give these sections in full and also the subsequent one which forbids the State being a party to internal improvements.

Debts, annual tax; proceeds. For the purpose of defraying extraordinary expenses and making public improvements, the State may contract public debts; but such debts shall never, in the aggregate, exceed one million dollars, except as hereinafter provided. Every such debt shall be authorized by law for some purpose specified therein, and the vote of a majority of all the members elected to each House, to be taken by the yeas and nays, shall be necessary to the passage of such law; and every such law shall provide for levying an annual tax sufficient to pay the annual interest of such debt and the principal thereof when it shall become due; and shall specifically appropriate the proceeds of such taxes to the payment of such principal and interest; and such appropriation shall not be repealed nor the taxes postponed or diminished until the interest and principal of such debt shall have been wholly paid.

Other debts. No debt shall be contracted by the State except as herein provided, unless the proposed law for creating such debt shall first be submitted to a direct vote of the electors of the State at some general election; and if such proposed law shall be ratified by a majority of all the votes cast at such general election, then it shall be the duty of the Legislature next after such election to enact such law and create such debt, subject to all the provisions and restrictions provided in the preceding section of this article.

Borrow money. The State may borrow money to repel invasion, suppress insurrection or defend the State in time of war; but the money thus raised shall be applied exclusively to the object for which the loan was authorized, or to the repayment of the debt thereby created.

Internal improvements. The State shall never be a party in carrying on any works of internal improvement.

MUNICIPAL indebtedness is not restricted by the Constitution at all. The only provision for the regulation of such matters contained in that instrument is the following, requiring the Legislature to make general laws and restricting the power to make debt in the case of cities, towns and villages.

Cities. Provision shall be made by general law for the organization of cities, towns and villages; and their power of taxation, assessment, borrowing money, contracting debts and loaning their credit, shall be so restricted as to prevent the abuse of such power.

Under the foregoing the legislation of Kansas has become so extensive that our limited space here does not admit of even a brief digest. The reader will, however, find the ground very fully covered in a series of articles which were published in the CHRONICLE, Vol. 53, pages 854 and 942, and Vol. 54, pages 42 and 128.

POPULATION OF STATE.—The population of Kansas has been as follows in the years named. Population in 1899 est. at 1,425,112.

1890	1,427,096	1870	364,399
1880	996,096	1860	107,206

The proportion of the colored population was 4·33 per cent in 1880 and 3·59 per cent in 1890. In number blacks were 627 in 1860; 17,108 in 1870; 43,107 in 1880, and 51,251 in 1890.

TAX RATE—The total State tax (per $1,000) in 1899 was $6·25.

DEBT LIMITATION.—In Wyoming the provisions of the Constitution with respect to debt contraction and limitation are quite voluminous. They are all found in Article 16 of that instrument, and indicate that the State is determined to preserve with care the conservative reputation which it enjoyed as a Territory. Citations from the laws of the State respecting debt limitation will be found on page 137 of the STATE AND CITY SUPPLEMENT of April, 1895.

POPULATION OF STATE.—Wyoming's population has been as follows in the years indicated:

1890.....60,705 | 1880.....20,789 | 1870.....9,118

In 1870-80 increase was 11,671, or 128·00 per cent, and in 1880-90 39,916, or 192·01 per cent.

Treasurer (term expires 1st Mon. Jan. 1901) - - L. C. Rice
Auditor (term expires 1st Mon. Jan. 1901) - B. Sinclair

Legislature meets biennially in odd years on the Monday after the 1st of January, and the length of sessions is limited to 60 days.

DEBT HISTORY.—Idaho as a Territory always kept its debt within moderate limits. When it became a State the bonded debt of the Territory was $146,715 06. Of that amount $46,715 06 was issued to pay floating debt, $80,000 to pay for Capitol building and $20,000 for an asylum. The condition of the State's debt now is set out with all the details below.

INTEREST on the asylum improvement and normal school bonds is payable at the Chase National Bank, New York; on the 6 per cent wagon-road bonds by Wells, Fargo & Co., New York; on the refunding bonds at the office of the State Treasurer.

TOTAL DEBT, ETC.—The total bonded debt on Jan. 1, 1900, was $425,500.

ASSESSED VALUATION.—In 1899 the total assessed valuation was $46,548,313; in 1898 was $30,423,671; in 1893, $33,431,841, property being assessed at about ⅓ of its estimated true value. The tax rate per $1,000 in 1899 was $15·00; in 1893 it was $8·50.

DEBT LIMITATION.—Idaho has placed limits in its Constitution upon the debt-making power both of the State and its municipalities. Though the provisions have a conservative tendency, they are not quite as strict as the Constitutional limitations of most of the other new States. For a digest of the laws respecting debt limitation in Idaho, see STATE AND CITY SUPPLEMENT of April, 1895, pages 138 and 139.

POPULATION OF STATE.—The population of Idaho has been as follows in the years named:

1890.....84,385 | 1880.....32,610 | 1870.....14,999

In 1870-80 increase was 17,611, or 117·41 per cent, and in 1880-90 51,775, or 158·77 per cent. The population in 1899, estimated, 150,000.

The above shows the debt for which Alturas County was primarily held, the bonds having been issued by Alturas County before the creation of Elmore and Logan counties and before the annexation of a part of Alturas to Bingham. When the Legislature parcelled out Alturas County it failed to provide for an apportionment of the debt.

The amount which Alturas County will be required to pay is only about one-fifth of above amount, because the bonds pledged the taxable property of the county as constituted at the time of issue, and before the division of Alturas. Elmore, Logan and part of Bingham County were taken from Alturas County in 1889.

In addition to the tax rate as above there is a poll tax of $1·00 per capita. Prior to 1880 this poll tax was 50 cents per capita.

DEBT LIMITATION.—Colorado's Constitutional provisions with reference to the creation of debt are of considerable length, and strike one at first as quite elaborate. After a brief study of the provisions their good qualities stand out so plainly as wholly to disarm criticism. No State has placed the debt-making power on a more reasonable basis. All the regulations with reference to public indebtedness are found in article 11 of the Constitution. See STATE AND CITY SUPPLEMENT of April, 1895, pages 140 and 141.

POPULATION OF STATE.—The population of Colorado has been as follows in the year named: in 1897 it was estimated at 500,000:

1890	412,198	1870	39,864
1880	194,327	1860	34,277

* Includes railroad property which in 1899 amounted to $46,394,275.

DEBT LIMITATION.—Municipal indebtedness as well as State debt is carefully regulated in the Constitution of California. The section which relates to the bonding of counties, cities, towns, etc., has been amended, the amendment having been adopted February 25, 1891. Nothing in explanation of the provisions needs to be said, as the sections of the Constitution treating of this subject are all very plain and comprehensive; they will be found in the STATE AND CITY SUPPLEMENT of April, 1895, page 146.

POPULATION OF STATE.—The population of California has been as follows in the years named.

1890	1,208,130	1870.....	560,247	1850.....	92,597
1880	864,694	1860.....	379,994		

In 1860-70 increase was 180,253, or 47·44 per cent; in 1870-80 304,447, or 54·34 per cent; and in 1880-90 343,436, or 39·72 per cent The number of Chinese in the population was 71,681 in 1890 and 75,132 in 1880.

CITIES, COUNTIES AND TOWNS IN THE STATE OF CALIFORNIA.

NOTE.—*For debts of civil divisions not found among the statements given below, see "Additional Statements" at the end of this State.*

Many of the counties in this State levy a special tax on property outside incorporated cities and towns for making, repairing and sprinkling of roads, and the tax rate as given below under these counties is made up of the State tax rate and the county tax rate *including* special road tax.

SACRAMENTO.—A. L. Frost, Treasurer.

This city is the county seat of Sacramento County and the capital of the State. The original debt was a little less than $1,600,000, being four series of 6 per cent bonds, issued in 1858, and falling due in 1888, 1893, 1898 and 1903 The flood of 1861-1862 destroyed half of the property values, and the coupons had been delinquent for a dozen years. In 1872 a Funded Debt Commission (abolished by Legislative Act of 1899) was created and received from the city a gift, or capital, of $212,080 80. With this it bought bonds and coupons, and collected from the city as other creditors did and re-invested in more bonds and coupons. In 1899 the Commission was ordered by decree of Court to cancel $1,411,167 60 of the bonds and coupons at par.

SANTA CRUZ.—

This city is in Santa Cruz County. The city has been in litigation over its 5 per cent refunding bonds (issued April 16, 1894), which it refused to pay, they having been purloined, but on Sept. 28, 1898, the United States Circuit Court held the entire issue of $360,000 bonds invalid as between the city of Santa Cruz and purchasers of the bonds *having notice of the facts constituting their invalidity*, but also held that the city was estopped by recitals contained in the bonds, from denying their validity in the case of innocent purchasers for value. Upon this ground the court rendered judgment against the city for the amount of principal and interest due upon such bonds as were purchased upon the *faith of recitals* contained therein and without notice or knowledge of their invalidity. The municipality received no consideration whatever for these bonds. The United States Circuit Court of Appeals, however, on Dec. 5, 1899, declared that the entire issue was void, on the ground that there was a flaw in the bonds themselves which the purchasers should have investigated before buying. V. 69, p. 1260. The city is in litigation also over $225,000 5 per cent water bonds issued Jan. 16, 1889, but in this case having received value for the bonds has been disposed to pay maturing principal and interest, notwithstanding their supposed invalidity. This payment, however, is resisted by certain tax payers.

* The Legislature does not always canvass the vote for Governor immediately upon its meeting, and the Governor's term runs until his successor is declared elected.

Legislature meets biennially in odd years on the second Monday in January, and there is no limit to length of sessions; but members of the Legislature can draw pay only for 40 days' services in the aggregate.

HISTORY OF DEBT.—For history of Oregon's State debt see State and City Supplement of April, 1894, page 147.

To-day Oregon practically has no debt. There are some little left-over lots that go by that name, in the aggregate amounting to $1,829·79, which the State is ready and would be very glad to pay, but cannot get them in. Interest on these ceased prior to December 31, 1896.

On January 1, 1900, $12,809 of general fund and $32,946 of Scalp County fund warrants were outstanding, in addition to which there are $36,344 of swamp land warrants, payable out of the proceeds of sales of swamp lands, redeemable on call of the Treasurer. On Jan. 1, 1900, the amounts held in the irreducible trust funds was as follows: School fund, $3,199,302; Agricultural College fund, $140,694, and University fund, $101,398.

VALUATION.—The gross valuation according to the returns of the county boards of equalization for 1899 was $128,373,108; exemptions, $8,090,229; net taxable valuation, $120,282,879. State tax rate (per $1,000), 1899 was $6·30.

DEBT LIMITATION.—Oregon framed and adopted its Constitution in 1857. It is quite a notable fact that the people of the State are to-day living under that instrument in the precise form in which it was originally adopted, for there never has been an amendment made to it. The provisions with respect to debt limitation will be found on pages 150 and 151 of the State and City Supplement of April, 1895.

POPULATION OF STATE.—The population of Oregon has been as follows in the years named:

1890	313,767	1870	90,923	1850	13,294
1880	174,768	1860	52,465

1892.....	319,016,341		

DEBT LIMITATION.—Like so many of the younger States, Washington has taken a conservative position with respect to State and municipal indebtedness. The provisions of the Constitution with reference to creating debt are so comprehensive and plain that it is necessary to do no more than copy the sections relating to the subject.

FIRST, with reference to the State, there are three sections; the first limits the debt, the second names exceptions to the limit and the third provides the method in which additional debt may be created. These sections are all found in article 8, and were given in the STATE AND CITY SUPPLEMENT of April, 1895; page 152.

SECOND, Counties, Cities, Towns &c. are more rigorously guarded. The whole system as to municipalities is found in section 6 of article 8, though section 7 is also important, as it forbids counties, cities &c. giving money or loaning credit to any corporation &c. Sections 6 and 7 will be found on page 152 of the April, 1895, SUPPLEMENT.

The State tax rate (per $1,000) for 1898 was $9·20.

DEBT LIMITATION.—Nevada has in its Constitution limited the *State* to a nominal indebtedness, except for the purpose of "defraying extraordinary expenses" arising from invasion, war, etc.; and in such cases the law shall provide an annual tax sufficient to pay the interest semi-annually and the principal within twenty-years. Further the State is forbidden ever to assume the debt of any county, city, etc., or to donate or loan its money or credit, or to subscribe to the stock of any company, etc.

Counties, cities, towns etc. cannot become stockholders in any company, or loan their credit, etc. But other than that the Constitution omits to put any limit on county, city, etc., debts; but provides that the Legislature shall make general laws restricting their borrowing power. The Constitutional provisions referred to are as follows:

ARTICLE IX., SECTION 3. [*State debt limited.*] For the purpose of enabling the State to transact its business upon a cash basis from its organization, the State may contract public debts, but such debts shall never in the aggregate, exclusive of interest, exceed the sum of three hundred thousand dollars, except for the purpose of defraying extraordinary expenses, as hereinafter mentioned. Every such debt shall be authorized by law for some purpose or purposes, to be distinctly specified therein, and every such law shall provide for levying an annual tax sufficient to pay the interest semi-annually and the principal within twenty years from the passage of such law, and shall specially appropriate the proceeds of said taxes to the payment of said principal and interest; and such appropriation shall not be repealed, nor the taxes be postponed or diminished, until the principal and interest of said debts shall have been wholly paid. Every contract of indebtedness entered into or assumed by or on behalf of the State, when all its debts and liabilities amount to said sum before mentioned, shall be void and of no effect, except in cases of money borrowed to repel invasion, suppress insurrection, defend the State in time of war, or, if hostilities be threatened, to provide for the public defense.

SECTION 4. [*State prohibited from assuming debts of cities, &c.*] The State shall never assume the debt of any county, town, city, or other corporation whatever, unless such debts have been created to repel invasion, suppress insurrection or to provide for the public defense.

ARTICLE VIII., SECTION 9. [*State shall not loan its money or credit &c.*] The State shall not donate or loan money or its credit, subscribe to or be interested in the stock of any company, association or corporation, except corporations formed for educational or charitable purposes.

ARTICLE XVII., SECTION 7. [*State to assume debts of the Territory.*] All debts and liabilities of the Territory of Nevada lawfully incurred, and which remain unpaid at the time of the admission of this State into the Union, shall be assumed by and become the debt of the State of Nevada *Provided*, That the assumption of such indebtedness shall not prevent the State from contracting the additional indebtedness, as provided in section 3 of article 9 of this Constitution.

ARTICLE VIII., SECTION 10. [*County, city, town &c. not to be stockholders, &c.*] No county, city, town, or other municipal corporation, shall become a stockholder in any joint-stock company, corporation or association whatever, or loan its credit in aid of any such company, corporation or association, except railroad corporations, companies or associations.

SECTION 8. [*Cities and towns to be restricted by general laws*]. The Legislature shall provide for the organization of cities and towns by general laws; and restrict their powers of taxation, assessment, borrowing money, contracting debts, and loaning their credit, except for procuring supplies of water.

POPULATION OF STATE.—Though Nevada has some good grazing land, the mining industry, more particularly silver mining, has had chief attention, and with the decline of this, population has also declined, the Census of 1890 showing a total of only 45,761 persons, against 62,266 in 1880. The famous Comstock lode is located within Nevada, but the silver production of the State has greatly fallen off in recent years. The full record of population is as follows:

1890 .....45,761 | 1880 .....62,266 | 1870.....42,491 | 1860.....6,857

STATE DEBT.—For a detailed report of the Virginia debt as it stood prior to 1892, and for the history of the debt settlement made by and between the Virginia Debt Commission and the Bondholders' Committee, see the STATE AND CITY SUPPLEMENT of April, 1893, pages 151 and 152. Other items of interest with reference to the Virginia debt will be found in the CHRONICLE as follows: Vol. 56, p. 636, 802; V. 57 p. 155, 190, 565, 733, 950, 1053; V. 58, p. 232, 274, 315, 357.—V. 66, p. 392.—V. 67, p. 333.—V. 68, p. 196, 241.

On Oct. 1, 1899, Virginia's debt stood as shown below:

LOANS— NAME AND PURPOSE.	Interest. P. Ct.	Interest. Payable.	Principal. When Due.	Principal. Outstand'g.
Riddleberger Bonds, Act of 1882	3	J & J	July 1, 1932 Subject to call after 1900.	$6,329,554
Century bonds, dated 1891..2&3		J & J	July 1, 1991	18,002,083

NOTE.—Since Oct. 1, 1899, $345,000 century bonds have been purchased by the Sinking Fund.

The interest on the Century bonds is 2 per cent for the first 10 years (or until July 1, 1901,) and 3 per cent thereafter. Both issues are exempt from taxation.

Total amount of bonds issued under act of Feb. 20, 1892:	
To Bondholders' Committee	$16,359,860
Deposited with Commissioners of sinking fund	1,645,580
	$18,005,440
Canceled	3,357

Total Act of Feb. 14, 1882	6,329,554
Total debt Oct. 1, 1899	$24,331,637

The Virginia Legislature re-enacted the Funding Act of Feb. 20, 1892, and under its provisions all old Virginia bonds were allowed to be brought in and funded into new Century bonds, upon the same terms as the Olcott settlement, provided they were presented for funding prior to December 31, 1896. By the Act of January 25, 1898, however, another opportunity to fund the bonds was given. By this Act bondholders had until July 1, 1898, to come in and accept the terms, and power was given the Commissioners of the Sinking Fund to extend the time until Dec. 31, 1898. By Act of Feb. 3, 1900, the time has again been extended, this time to July 1, 1900, with authority to still further extend it to Jan. 1, 1901. Bonds were to carry interest from the semi-annual period next preceding the date of funding. Under the old law coupon bonds once converted into registered certificates were not re-convertible into coupon bonds, but the 1892 Act makes coupon and registered bonds interchangeable.

WEST VIRGINIA CERTIFICATES.—In the settlement of 1871 it was assumed that West Virginia should provide for one-third the principal and interest of the then existing debt, that is $15,239,370 out of the total debt of $45,718,112. To represent, therefore, West Virginia's share of bonds funded "deferred certificates" were issued. All efforts, however, to induce West Virginia to take recognition of these certificates have thus far been unavailing. In 1885 the holders of about $8,000,000 certificates united for the purpose of obtaining a compromise, and deposited their holdings with the Farmers' Loan & Trust Company, which gave its trust receipts therefor. This attempt came to nothing, and in 1890 Messrs. C. Satterthwaite & Sons, of No. 30 Throgmorton Street, London, E. C., started another movement to bring about a settlement.

An adjustment company, with the Mercantile Trust & Deposit Company of Baltimore at its head, was formed late in 1893 for the purpose of making an attempt at the settlement of the West Virginia certificates. See CHRONICLE, Vol. 57, page 819; Vol. 58, pages 51, 314 and 444.

In August, 1898, another movement was started, this time under the leadership of Messrs. Brown Bros., with the same object in view, and that movement is now being vigorously pushed. The plan provides for ascertaining the exact amount of the old Virginia debt with which West Virginia is justly chargeable (subject to certain limitations), and then compromising that amount at the same percentage at which Virginia compromised the two-thirds of the original Virginia debt, namely, 60 per cent for principal and 30¼ per cent for interest. (See the editorial article in STATE AND CITY SUPPLEMENT for April, 1899.) The Legislature of Virginia in March, 1900, passed a bill authorizing the State Debt Commission to take such action and institute such proceedings as may be deemed proper to protect the State's interests and to bring about a settlement with West Virginia. (V. 70, p. 494.) The purpose of this Act was to enable Virginia to bring suit against West Virginia in the U. S. Supreme Court.

After about three-fourths of the old Virginia bonds had been surrendered, and "deferred certificates" been given to represent West Virginia's one third, under the acts of 1871 and 1879, these acts were repealed. The remaining bonds were refunded under other laws. These laws required a certificate to represent one-third the *principal* of the old bonds brought in for funding, but gave "non-interest-bearing certificates" to represent one-third the *interest* on old bonds. The following shows the amounts of each issue:

LOANS— NAME AND PURPOSE.	Interest. P. Ct.	Interest. Payable.	Principal. When Due.	Principal. Outstand'g.

TOTAL DEBT, SINKING FUNDS, Etc.—The subjoined statement shows Kentucky's bonded debt on the following dates.

	July 1,'99.	Jan. 1, '99.	Jan. 1, '98.
Tot. bonded debt (exclusive of bonds held by the Board of Education)	$1,171,394	$1,171,394	$1,171,394

The educational bonds are not, strictly speaking, a debt of the State. They are irredeemable; the fund is inviolate, and the six per cent semi-annual interest drawn by them is provided for out of the revenue placed to the credit of the sinking fund annually. The amounts are as follows: State bonds, issued Jan. 1, 1870, $1,327,000; county bonds, issued Jan. 1, 1885, $378,946; new school bonds, issued March 12, 1892, $606,650.

There was also outstanding on February 1, 1899, a floating debt of $764,000; sinking fund, $698,000; net floating debt, $66,000.

ASSESSED VALUATION—The State's assessed valuation has been as follows:

Years.	Real Estate.	Personal Property.	Railroads.

The city's total resources on Jan. 23, 1900, were $484,699 43, including $161,500, the value of school buildings, and $186,100, the value of other public buildings.

TAX FREE.—Bonds due 1906 are free from taxation.

MEMPHIS.—JOS. J. WILLIAMS, Mayor. W. B. ARMOUR, Secretary.

Memphis is the County seat of Shelby County. A yellow fever epidemic in 1878 rendered the city unable to meet its obligations, and in 1879 the city's charter was repealed and the Taxing District of Shelby County was organized for the purpose of securing a compromise with the bondholders on such terms as the city felt able to make. The courts, however, held that the Taxing District was liable for the entire debt of the city, and a compromise at 50 per cent was then arranged for under the act of March 1883. This act was amended in 1885. The old debt has been all retired and interest payments on the new issues are promptly made. In 1891, by an act of the Legislature, this district was again incorporated as a city.

INTEREST—Interest is payable in New York and Memphis. The Flippin bonds carry tax-receivable coupons.

FREEDOM FROM TAXATION.—Bonds are free from local tax.

TOTAL DEBT, ETC.—The city's bonded debt on January 1, 1900, was $3,040,000; sinking fund, $72,293; net debt, $2,967,707.

An annual tax of $1·00 per $1,000 is levied for the retirement of the bonds. A tax sufficient to meet the interest is also required by law.

The funding act of 1883 provides that every part thereof shall be considered a contract between the State, the Taxing District and the bondholders, and no part material to the rights of the bondholders shall be modified while the bonds remain outstanding.

ASSESSED VALUATION.—The assessed valuation and tax rate have been as follows, the assessment for 1894 being about ⅗ actual value:

Years.	Real Estate.	Personal Property.	Tot. Assessed Valuation.	Rate of tax per $1,000.
1898.....	.....	.....	$37,788,944	.....

TAX FREE.—All bonds issued by this city are exempt from city tax.

TOTAL DEBT, SINKING FUNDS, ETC.—The city's bonded debt on Jan. 1, 1900, was $3,413,500, including a water debt of $1,497,000. The city has no floating debt. Beginning this year (1900) 10 per cent of all revenues collected by the city, except for schools, will be set aside to form a sinking fund (Act of General Assembly 1899).

WATER WORKS.—The city owns its water works, on which it has expended $1,500,000. By act of Legislature the net revenue derived from sales of water must be applied to interest on the water bonds.

DEBT LIMITATION.—New bonds can be issued only with permission of the Legislature and the vote of the people.

State Capital	Raleigh
Governor (term expires Jan. 1, 1901)	D. L. Russell
Secretary of State (term exp. Jan. 1, 1901)	Cyrus Thompson
Treasurer (term expires Jan. 1, 1901)	W. H. Worth

Legislature meets biennially in odd years on the Wednesday after the first Monday in January, and there is no limit to length of sessions, but if sessions are continued longer than 60 days members "shall serve without compensation."

STATE DEBT.—The old debt, excepting such as is not recognized, has mostly been funded under the funding laws of 1879, the time prescribed for the exchange having been extended to January 1, 1901. These laws provided for the issue of (1) consolidated 4 p. c. bonds due in 1910 to fund old ante-war bonds at 40 per cent of face value, "New" railroad bonds recognized as valid at 25 per cent, and bonds of 1866 and 1868 at 15 per cent, nothing being given for overdue coupons; and (2) for new consolidated 6 per cent bonds due in 1919, for which the North Carolina RR. construction bonds were made exchangeable at par, holders of construction bonds abating $240 of overdue interest on each $1,000 bond. The new bonds, both 4s and 6s, carry tax-receivable coupons, and are exempt from "all State, county or corporate taxation or assessment, direct or indirect, general or special."

An amendment to the State Constitution passed by the Legislature in 1879 and ratified by popular vote in 1880, forbids the General Assembly to pay or recognize as valid the following bonds: Special tax bonds $11,366,000; bonds to Chatham RR., 1868, $1,030,000, and to Williamston & Tarboro RR., $150,000; Penitentiary bonds of 1868 $44,000. The special tax bonds are in 3 classes, class 1 bearing the coupon of April 1869 and since; class 2 bearing the coupon of Oct. 1869; class 3 bearing the coupon of April, 1870 Holders of the special tax bonds brought suit to establish the validity of their bonds and the case was decided in favor of the State.

The recognized debt which had been adjusted up to Dec. 1, 1899, stood as follows:

LOANS— NAME AND PURPOSE—	Interest. P. Ct.	Payable.	Principal. When Due.	Outstand'g.
Construction bonds	c 6	A & O	Apr. 1, 1919	$2,720,000
Renewal bonds	c 4	J & J	July 1, 1910	3,379,450
Bonds of 1889—				
P ison debt bond, 4s	....	J & J	Jan. 1, 1909	110,000
Prison farm bonds, 4s	....	J & J	Jan. 1, 1909	60,000

PAR VALUE OF BONDS.—The consolidated 4s are $50, $100, $500 and $1,000; the consolidated 6s $1,000 each. The prison bonds are for $100, $500 and $1,000 each.

INTEREST on the consolidated 4s and 6s is payable in New York at the National Bank of the Republic and in Raleigh.

TOTAL DEBT RECOGNIZED AND TOTAL ADJUSTED.—The funding act of March 4, 1879, was extended to Jan. 1, 1901. The recognized fundable debt which has been funded and the recognized fundable debt which has *not* been funded are as follows:

	Funded.	*Not funded*
Consols 6 per cent	$2,720,000	$25,000
Consols 4 per cent	3,379,450	232,320

To the foregoing we should add the further fact that the State does not have to raise money for the interest on the six per cent bonds for the reason that the lease of the North Carolina Railroad provides a fund for the payment of the interest thereon, and the State holds three millions in the stock of the road, which if sold will much more than pay the principal.

ASSESSED VALUATION.—The State's assessed valuation (about 60 per cent of cash value) and tax rate have been as follows. The total valuation for 1899, not including railroads, was $252,891,827:

Years.	*Real Estate.*	*Personal.*	*Railroads.*	*Total.*	*Tax Rate.*
1898.	$155,280,169	$76,967,160	$33,619,868	$265,867,197	$4·30
1897.	153,858,554	75,995,995	29,157,099	259,011,508	4·30
1896.	153,835,584	77,025,547	26,576,096	257,437,227	4·30
1894.	158,088,064	76,391,837	25,084,549	259,564,450	4·13⅓
1891.	155,079,648	87,370,243	19,726,760	262,176,651	4·33⅓
1890.	141,817,026	74,946,718	18,438,298	235,202,042	2·50
1885.	126,955,679	82,613,417	.....	209,569,096	2·50
1881.	104,742,911	62,995,728	.....	167,738,639	2·80

POPULATION OF STATE.—The population of North Carolina has been as follows:

1890	1,617,947	1860	992,622	1830	737,987
1880	1,399,750	1850	869,039	1820	638,829
1870	1,071,361	1840	753,419	1810	555,500

The proportion of the colored population was 37·95% in 1880 and 35·05% in 1890. In number blacks were 316,011 in 1850; 361,522 in 1860; 391,650 in 1870; 531,277 in 1880, and 567,170 in 1890.

Total area of State (square miles) - - - - -	59,475
State Capital - - - - - - - - - -	Atlanta
Governor (term expires *Oct. 1900) - -	Allen D. Candler
Secretary of State (term expires *Oct. 1900) - -	Philip Cook
Treasurer (term expires *Oct. 1900) - -	William J. Speer
Comptroller (term expires *Oct. 1900) -	William A. Wright

Legislature meets annually in October, and sessions are limited to fifty days.

*Section 49 of the Code says: "The Governor-elect shall begin the discharge of his duties from the time of his inauguration. The ceremony of inauguration shall take place during the first week of the session of the General Assembly next after the election, and on such day of that week as the General Assembly by joint resolution appoints. On failure of appointment, it takes place at 12 o'clock, meridian, on Saturday of that week, unless prevented by providential causes." Article V., section 2, paragraph 1 of the Constitution says that the Secretary of State, Comptroller-General and Treasurer shall "hold their offices for the same time as the Governor."

HISTORY OF DEBT.—The details of Georgia's early history in debt-making will be found in the STATE AND CITY SUPPLEMENT for April, 1893, pages 165 and 166. The debt of the State is now being steadily reduced, $100,000 being devoted each year to that purpose. Moreover the State Constitution adopted in December, 1877, provides against the creation of any bonded debt "except to repel invasion, suppress insurrection, or defend the State in time of war," $200,000 being made the limit for floating indebtedness which may be temporarily incurred in case of deficiency in the revenues.

PAR VALUE OF BONDS.—Bonds are in pieces of $500 and upwards.

INTEREST on the university bonds is payable at the State Treasury in Atlanta, and all others at Atlanta, Ga., and at the National Park Bank, New York City.

TAX FREE.—All of the above-mentioned bonds are tax exempt.

BONDED DEBT.—The valid bonded debt of the State of Georgia on March 1, 1900, was $7,836,000, of which $7,831,500 was interest-bearing and $4,500 was past due and non-interest bearing. The contingent liabilities of the State on the same date were $464,000 of South Georgia & Florida RR. bonds, indorsed by the State of Georgia.

STATE PROPERTY.—The State owns the Western & Atlantic RR., extending from Atlanta, Ga. to Chattanooga, Tenn., 138 miles, and has leased it for 29 years from December 27, 1890, to the Nashville Chattanooga & St. Louis RR. Company at a rental of $420,012 per annum.

DEBT LIMITATION.—"The bonded debt of the State shall never be increased except to repel invasion, suppress insurrection or defend the State in time of war." (Constitution of 1877, Art. IV, Sec. 12, Par. 1.

COUNTIES, CITIES, &c. The State Constitution of 1877, Article VII, Section VII, limits the indebtedness to seven per cent of the assessed valuation. The paragraph reads as follows: "The debt hereafter incurred by any county, municipal incorporation or political division of this State, except as in this constitution provided for, shall not exceed seven per centum of the assessed value of all taxable property therein, and no such county, municipalities or division, shall incur any new debt, except for a temporary loan or loans to supply casual deficiencies of revenue, not to exceed one-fifth of one per centum of the assessed value of taxable property therein, without the assent of two-thirds of the qualified voters thereof, at an election for that purpose to be held as may be prescribed by law; but any city the debt of which does not exceed seven per centum of the assessed value of the taxable property at the time of the adoption of this Constitution may be authorized by law to increase, at any time, the amount of said debt, three per centum upon such assessed valuation."

MUNICIPAL BOND ISSUES.—In December, 1897, a very important law governing issues of bonds by counties, municipalities and other civil divisions in Georgia was passed. This law provides for having the Superior Court determine the validity of proposed bond issues, and judgment in the affirmative having been given, the bonds thereafter can never be called in question. See CHRONICLE of January 15, 1898.

ASSESSED VALUATION.—The State's assessed valuation (which is not over 50 p. c. of actual value) and tax rate have been as follows:

DEBT LIMITATION.—The Constitution of the State of Georgia adopted in 1877, limits municipal indebtedness in this State to 7 per cent on the amount of taxable property. Augusta's debt at that time was in excess of that limitation and still is. Therefore under no circumstances can the debt of the city be increased. No bonds can be lawfully issued except for the purpose of retiring old issues as they fall due. No obligation of this city has ever been repudiated or scaled.

CITY PROPERTY.—The city owns its water works, valued in 1900 at $1,000,000, the Augusta Canal, valued at $2,000,000, and $300,000 in other good real estate within city limits. The net annual income from water rents (canal and water works) was reported in 189 - as $95,588·52 and increases yearly from new industries and new extensions of water mains.

ASSESSED VALUATION.—The city's assessed valuation and tax rate have been as given below. In 1897 the assessed valuation of all real estate was reduced 10 per cent and in 1899 and in 1900 5 per cent was deducted.

Years.	*Real Estate.*	*Personal Property.*	*Total Assessed Valuation.*	*City tax. per* $1000
1900	$13,063,301	$5,493,097	$18,556,398	$12·50

INTEREST is payable in New York and Rome, and the coupons are tax-receivable. Interest has been promptly paid since 1876, when the city made an adjustment of her debt.

BONDED DEBT on Feb. 1, 1900, was $305,600, including the water debt. The bonded debt in 1891 was $304,200.

The sinking fund receives yearly $5,000.

WATER WORKS owned by the city are valued at $200,000; the earnings yield a surplus of $4,000 per annum over expenses.

DEBT LIMITATION.—No liabilities can be created by this city until its present debt is paid.

ASSESSED VALUATION of real estate in 1898 was $3,268,910 personal property, $1,582,434; total, $4,851,344; city tax rate (per $1,000), 1899, $11·00; State and county tax, $10·00. The city's charter limits taxation for all purposes to $12·50 per $1,000.

POPULATION in 1890 was 6,957; in 1880 was 3,877; in 1895 the population was 12,000.

SAVANNAH.—HERMAN MYERS, Mayor. C. S. HARDEE, Treasurer.

Savannah is the county seat of Chatham County. Prior to the year 1876 the city's bonds were all 7s, but since that date a compromise has been made with the bondholders, and all but $3,300 of the old bonds have been exchanged for new ones bearing 5 per cent tax-receivable coupons. The city of Savannah is prohibited by law from issuing any bonds in addition to those already outstanding.

CITIES, COUNTIES AND TOWNS IN THE STATE OF ALABAMA.

ANNISTON.—O. Z. HENDERSON, Mayor. P. B. BROWN, Treasurer.

Anniston is in Calhoun County. The city defaulted in the payment of interest on the bonds now outstanding. A majority of the bond holders, having united and brought suit in the United States District Court, secured a judgment against the city for the payment of the overdue coupons. The Mayor and the Chairman of the Finance Committee were appointed a committee to arrange for an adjustment on the basis of a reduction of interest, and it is stated an agreement has been reached whereby new 20-year bonds will be issued to refund the old bonds, together with the interest accrued thereon. The new bonds will bear 2% interest for the first five years, 3% for the next five years, 5% for the third five years and 6% for the remaining five years.

MOBILE.—J. CURTIS BUSH, Mayor.

Mobile is the county seat of Mobile County. This city has paid its interest regularly since the compromise with its bondholders in 1881.

LOANS— NAME AND PURPOSE.	Interest.— P. Ct.	Interest.— Payable.	Principal.— When Due.	Principal.— Outstand'g.
Funding bonds of 1881.....	4-5	J & J	Jan. 1, 1906 Subject to call at 100.	$2,255,787
Water and sewer bonds 1898..	4½	J & J	Jan. 2, 1939	750,000

PAR VALUE OF BONDS—The bonds are for $500 each.

INTEREST is payable in New York City at the Mercantile National Bank; also in Mobile at the First National Bank. The bonds bear 4 per cent to Jan. 1, 1901; thereafter 5 per cent.

TOTAL BONDED DEBT Feb.15, 1900, was $2,255,787, not including the water bonds. Of the funding bonds of 1881 about $250,000 stand better in the market than the rest because they are endorsed with the statement that they represent the purchase money for certain wharf property and are secured by a vendor's lien on said property. An Act of the Legislature requires the city to levy a tax of ¾ of one per cent on its valuation to provide for the payment of principal and interest of the bonds of 1881. After the payment of interest the surplus remaining from this tax is applied to the redemption of the bonds, after drawing by lot, at par, bonds so redeemed being canceled.

ASSESSED VALUATION for 1899 of real estate $11,306,461, personal property, $4,876,443; total, $16,182,904; 1897 was $15,716,922; for 1896, of real estate, was $10,303,555, of personal property, $4,252,872; total, $14,556,427. The total tax rate (per $1,000) for 1899 was $17·50, including State tax $5·50, county tax $5·00, city tax $6·00 and school tax $1·00.

POPULATION—The population in 1890 was 31,076; in 1880 was 29,132; in 1870 was 32,034. In 1899 it was estimated at 45,000.

Legislature meets quadrennially in leap years the Tuesday after the first Monday in January, with a special session the second year following the leap year. Regular or quadrennial sessions are not limited, but special sessions are limited to 30 days, unless the Governor by proclamation shall extend the sitting, and only revenue and appropriation bills can be considered, "except such other matters as may be acted upon at an extraordinary session called by the Governor."

*This is the date of the organization of the old Mississippi Territory, which was divided up into two parts when the State was created. In January, 1900, the State Legislature passed a bill authorizing an issue of $1,000,000 bonds for a new State House.

HISTORY OF DEBT.—For history of the State debt of Mississippi see STATE AND CITY SUPPLEMENT of April 1894, page 170.

Legislature meets biennially in even years on the second Monday in May, and sessions are limited to 60 days.

*Further provision for the Government of the Territory, then known as the Territory of Orleans, was made by the Act of March 2, 1805, the duration of the Act of March 26, 1804, having originally been confined to the period of one year from October 1, 1804, "and to the end of the next session of Congress which may happen thereafter."

HISTORY OF DEBT.—For history of the State debt of Louisiana see STATE AND CITY SUPPLEMENT of April 1894, pages, 171 and 172.

Debt on which the State is paying interest is about as follows:

LOANS— NAME OR PURPOSE,	—Interest.— P. Ct. Payable.	—Principal.— When Due.	Outstand'g.
Consol. 7 per cent bonds of 1874, stamped 4 per cent....	4s J & J	Jan. 1, 1914	$12,300

Consolidated (constitutional) bonds of 1880.....	4s J & J	Jan. 1, 1914	101,700

DEBT LIMITATIONS STATE, AND MUNICIPAL.—For debt limitations under the Constitution adopted May 12, 1898, see editorial columns of the State and City SUPPLEMENT for October, 1898. The limitation for municipalities is 10 per cent upon the assessed value of the property of the municipal corporation, parish or drainage district.

PAR VALUE OF BONDS—The consolidated 7s, stamped 4 per cent are for $100, $500 and $1,000. The Constitutional bonds for $5, etc. See CHRONICLE, Vol. 68, p. 987.

INTEREST is payable by Winslow, Lanier & Co., New York City and by Louisiana National Bank, New Orleans.

FISCAL AGENTS.—The fiscal agents of the State are the New Orleans Nat. B'k, the Louisiana Nat. B'k and the Hibernia Nat. B'k at New Orleans, and the Bank of Baton Rouge at Baton Rouge.

TOTAL DEBT—The subjoined statement shows Louisiana's total bonded debt on April 1, 1899.

	April 1, 1899.
Total bonded debt bearing interest.....	$10,877,800
Floating Debt—	
Baby bonds and certificates (act of 1880) exclusive of coupons.....	914,397

The baby bonds are 3 per cents and were due in 1886. They were issued to fund certain obligations of charitable institutions. No interest has been paid on them since January, 1885, but provision has been made to pay the principal of the bonds at not more than 50 p. c.—See CHRONICLE, Vol. 68, p. 987.

In September, 1889, it was discovered that a number of bonds had been fraudulently issued. Part of these were subsequently recovered, but $373,600 consols so issued ($303,600 being consols of 1874 and $70,000 Constitutional bonds) are still outstanding. The State considers them "null and void," and they are therefore not included in the amount outstanding above. There are also $421,935 fraudulently issued baby bonds outstanding.

There are moreover old bonds not recognized, and hence not fundable, amounting to $3,953,000. These include New Orleans Mobile & Texas 8 per cent bonds, endorsed, $875,000; 8 per cent State bonds issued to said road, $2,500,000; 8 per cent bonds issued to the N. O. Mobile & Chattanooga RR. $70,000; 7·30 per cent bonds issued to the Mississippi & Mexican Gulf Ship Canal Co. $260,000, etc., etc.

ASSESSED VALUATION—The assessed valuation is estimated at about 37 per cent of the actual value. The State tax (per $1,000) for 1898 was $6·00:

Years.	Total Assessed Valuation.	Years.	Total Assessed Valuation.
1899.....	$267,723,052	1885.....	$212,725,564

POPULATION OF STATE.—The population of Louisiana has been as follows in the years named:

1890.....	1,118,587	1860.....	708,002	1830.....	215,529
1880.....	939,946	1850.....	517,762	1820.....	152,923
1870.....	726,915	1840.....	352,411	1810.....	76,556

For 1898 the population is estimated at 1,250,000. The proportion of the colored population was 50·32 p. c. in 1890 against 51·46 p. c. in 1880. In number blacks were 562,893 in 1890; 483,655 in 1880; 364,210 in 1870; 350,373 in 1860; 262,271 in 1850.

NEW ORLEANS. } PAUL CAPDEVIELLE, Mayor. } WILLIAM S. DOUGLAS, Compt'r.

New Orleans is co-extensive with the parish of Orleans. An amendment to the Louisiana Constitution authorizing the city to refund its debt at a lower rate of interest was adopted in 1892, and up to July 1, 1899, the city had issued 4 per cent 50-year bonds to the amount of $9,008,500, thus enabling it to pay all its maturing loans and all those upon which it had option. The amendment provides that the interest tax collected in excess of requirements shall be divided between city schools and city improvements. The new Louisiana Constitution, in effect May 12, 1898, confirms these arrangements. On June 6, 1899, the city voted a special tax of 2½ mills for water, sewer and drainage purposes, intended to provide for an issue of from 12 to 16 millions bonds. As this requires an amendment to the State Constitution, the Legislature, in special session, passed a bill for its submission to a vote of the people of the State at the election to be held April 17, 1900.

PREMIUM BONDS.—The premium bonds ($20 each) receive no interest till drawn by lot for payment, and then they receive principal with simple interest from July 15, 1875. They also get a premium if they happen to draw a prize, 2,352 prizes aggregating $100,000 being distributed yearly among the drawn bonds. From 1892 to 1895 inclusive 21,000 bonds (par value $420,000) were paid each year, in two instalments of 10,500 bonds each, on January 15 and July 15; since 1895 bonds to the number of 10,000 are paid semi-annually—20,000 bonds annually. There are two drawings to determine the bonds payable July 15 in each year, and they take place January 31 and April 15 next preceding. The drawings to determine the bonds payable January 15 take place July 31 and October 15.

The drawings to determine which bonds shall receive prizes (ranging from $20 to $5,000) occur just before the bonds are paid. Drawn premium bonds are receivable by the city for all dues, licenses, taxes and debts of any description at their face value and interest.

Legislature meets biennially in odd years on the 2d Monday in January, and sessions are limited to 60 days, unless by a two-thirds vote of the members a longer time is decided on.

HISTORY OF DEBT.—For history of the Arkansas State debt see STATE AND CITY SUPPLEMENT of April, 1894, page 173. By Act of Congress approved April 29, 1898, a compromise was effected between the United States and the state. In accordance with the terms of this settlement the United States authorities on May 27, 1898, delivered to the State Arkansas bonds and coupons amounting to $1,505,160, and carrying besides a large sum of overdue interest. This operation wiped out the entire debt of the United States against the State except $160,000, which has since been reduced to $105,000, and this latter is the amount of bonds now held by the United States.

REFUNDING.—Under the Legislative Act of 1899 the entire debt (except that due the United States) is being refunded by an issue of 3 per cent 30-year bonds, denominations $500 and $1,000.

Up to Aug. 18, 1899, $1,222,500 new bonds had been exchanged for the holdings of the Permanent School Fund (including the Sixteenth Section fund) and for the holdings of private parties and the Arkansas Industrial University. Of this total only $45,000, principal and interest, represents the amount of the bonds held by individuals which had been funded up to that date.

The funding bonds of 1875 ("Loughboroughs") re-issued since 1885 had all been refunded under this Act before August 18, 1899. Since then all but $17,000 of the blue-numbered non-Holfords of 1869 have been refunded and all but $9,000 of the red-numbered non-Holfords of 1870.

Under notice of the Governor all bonds not exchanged must be presented before May 8, 1900.

The $160,000 of bonds held by the United States at the time of settlement were to be paid off, one-half on or before Sept. 1, 1900, and the other half Sept. 1, 1901. Up to April 1, 1900, $55,000 had been paid, leaving $105,000 outstanding.

TOTAL DEBT, Etc.—The following statement shows the debt of the State as it stood *prior* to the refunding of the recognized debt under the Act of 1899. In 1898, under a compromise made by Act of Congress, as noted above, a large amount of bonds and coupons held by the United States was delivered up, which accounts for the reduction shown October 1, 1898.

	Oct. 1, '98.	Oct. 1, '96.	Oct. 1, '94.	Oct. 1, '90.
Total bonded debt	$882,000	$1,576,000	$1,805,000	$2,092,100
Overdue interest	683,580	2,642,752	3,018,022	2,884,897
Total debt	$1,565,580	$4,218,752	$4,823,022	$4,976,997

In addition to the above indebtedness there was outstanding on Oct. 1, 1898, State scrip to the amount of $375,264 and sinking fund notes $105,022, making the total State indebtedness $2,045,866. All this scrip was called for payment Aug. 1, 1899, (to be barred if not presented for payment within six months), and the amount so barred on Feb. 1, 1900, was about $374,000. The *bonded debt* on Oct. 1, '98, was held as follows: by the United States $160,000 principal, $2,400 interest; permanent school fund, $275,000 principal, $193,785 interest; Sixteenth Section fund, $338,000 principal, $318,450 interest; Arkansas Industrial University, $42,000 principal, $44,970 interest; individual investors, $67,000 principal, $123,975 interest.

DEBT NOT RECOGNIZED, HOLFORDS, Etc.—A summary or the unrecognized debt appears below. To aid in distinguishing the Holfords from the valid bonds of the State it should be said that under the act of April 6, 1869, two series of funding bonds were issued. One was dated July 1, 1869, and numbered from 1 to 1,000, inclusive. All of this series are printed in blue ink and are non-Holfords—in other words, are recognized obligations. The second series were dated January 1, 1870, numbered from 1 to 2,050, inclusive, and are printed in red ink. Of this series numbers 491 to 1,860, both inclusive, are the Holfords which constitute part of the unrecognized debt. The unrecognized debt is as follows:

* Valuation for 1899 includes franchise valuations to the amount of $38,138,070, not heretofore taxed.

MUNICIPAL AND COUNTY BOND LAW.—A State law approved in 1893 has done much to widen the market for new Texas municipal loans. At present before any bond can be issued by a municipality or county it must receive the certificate of the Attorney-General that it is a lawful obligation. It must then be registered in the office of the State Comptroller, and when the bond is so issued its validity cannot be questioned except on the grounds of fraud or forgery. The text of the law will be found in the STATE AND CITY SUPPLEMENT of April, 1895, page 178.

Where the fact is known to us we have marked with a star (*) in the returns below the issues put out *prior* to the enactment of the above law.

A law went into effect Aug. 26, 1899, compelling counties and incorporated towns and cities to submit propositions for the issuance of

bonds (all except "funding bonds issued or to be issued of any valid outstanding bonds of said county, town or city;" also excepting bond issues for less than $2,000, when "issued for the purpose of repairing buildings or structures, for the building of which bonds are allowed to be issued,") to a vote of the qualified taxpayers before the issue can be submitted to the Attorney General for approval as required by the law of 1893—V. 69, p. 509.

POPULATION.—The population of Texas has been as follows:

1890.....2,235,523	1870.....818,579	1850.....212,592
1880.....1,591,749	1860.....604,215	

Of the total population in 1890 492,837 were blacks, which compares with 393,384 in 1880, 253,475 in 1870, 182,931 in 1860 and 58,558 in 1850. It will be observed that the proportion of the colored race has greatly diminished, the ratio for 1890 being only 22·04 per cent, against 24·71 per cent in 1880 and larger percentages in previous decades.

STREET RAILROAD PROBLEMS.

Among the questions in electric street railroad management uppermost to-day in the minds of operating officers, are those which relate to transportation problems and the relations of the companies to the public, through the service they perform as carriers. This signifies, for one thing, that a second stage has arrived in the progress of the industry. Inevitably any business which is a producing agency must at first be concerned with the features which go to regulate the cost of production. When these have reached a certain stage of satisfactory development the possible savings in distribution may be profitably taken up. In street railroad operations the great problems of the past have related, first of all, to economy in the generation and distribution of the electric current—the distinguishing feature of the system. Therefore the design and construction of operating machinery, the economy of power-houses, motors, etc., have absorbed attention; and, secondly, track construction and equipment. If these matters cannot be definitely regarded as settled they can at least be said to have reached such a period of development that their main features may probably be regarded as fixed.

The development of the future will be along the lines already arrived at, and not revolutionary changes, as many of those of the past have been. The problems now engaging the largest share of discussion are not fundamental and of an engineering character, as those just referred to, but relate more to questions of management, as the regulation of car service to traffic requirements, the proper basis for comparative operating systems, the standardizing of accounts, the relation of the companies to their employees and of the latter to passengers, the utility of parks and other means to develop travel, etc. The most interesting of all these is undoubtedly the adjustment of car service, because this relates to the reason for the existence of the street railways. They are created to furnish transit for the people. The service given is the one matter of electric railroad operation with which the people are concerned.

HEAVY ELECTRIC TRACTION CONSTRUCTION.

The assurance that active construction work will shortly begin on the underground railroad in New York City brings up questions relating to the electrical equipment of the line. This, necessarily, will be of the heaviest character and of the most advanced type, while a good deal of it will represent pioneer work. In this country there is no installation which will be of service in giving experience which may be applied to the equipment of the rapid transit tunnel in New York. Although the development of electric traction was practically first taken up in the United States, and thousands of miles of electric lines have been built in the past ten years, no work of the nature called for by the rapid transit tunnel requirements has been accomplished. Strangely enough, Switzerland, which has been backward in electric traction, now affords the best examples of the application of electricity to heavy traction work, and it is in the operation of several of its lines that the best available experience applicable to the conditions in New York must be found.

Electric railroad construction in the United States has been chiefly overhead construction. This is successful for light traction purposes, as the operation of cars on city streets or country highways. Overhead wires furnish the current for operating the great 90-ton electric locomotives used for hauling freight trains through the short Baltimore tunnel, but this is a special application, and the conditions there have no application elsewhere. The third rail, which is used in various parts of the country, particularly on elevated railroads and sections of steam lines which have been electrically equipped, is unsuited, with its exposed rail carrying a live current, for tunnel work. The underground trolley conduit, which has been recently developed and is working satisfactorily on a number of lines in New York City, is out of the question for heavy trains running at fast speeds, which are proposed in the rapid transit tunnel. These are the only systems of electric traction used in this country; with insurmountable objections to each of them in the proposed tunnel at New York, it will be seen that it is necessary to turn to Europe for experiences.

The new London underground railroads may be suggested as prototypes for the new rapid transit tunnel in New York, but there are good reasons why their equipment will not be followed. As they are the only underground railroads operated by electricity, some reference may be made to them. Two lines are in successful operation, the City & South London and the Waterloo & City Railway; a third line, the Central London Electric Railway, a more extensive project than either of the others, is shortly to be undertaken. All three are standard gauge, but the tunnel of the Waterloo & City does not permit the use of standard-size rolling stock. It operates trains of four cars, of which the two end ones are each fitted with four motors, so that the train can be driven with either set of four motors. The City & South London uses separate electric locomotives, each drawing three passenger cars. The Central London will have locomotives weighing 35 tons, each with four gearless motors, and they are to draw a train of seven cars with a seating capacity of over 330 passengers. Continuous currents are used to furnish power for all these lines, the current being taken from a third rail on the surface with the return current through the other rails, which are copper bonded. Continuous currents are no longer regarded as suitable for such heavy work, particularly when the current has to be transmitted long distances.

Under these circumstances alternating currents are coming into more general use because of their greater economy in transmission. On the Central London Railway, already mentioned, although continuous current motors will be used, the power is transmitted through three-phase currents, which are then transformed by rotary converters. Switzerland, however, as already stated, possesses the latest development in heavy electric railroad designing, particularly in the installation of the Burgdorf-Thun Railway. This line is 26 miles long, of the heaviest construction, so that steam locomotives drawing ordinary rolling stock can use the line. It is operated by three-phase alternating currents taken from two overhead conducting wires, with the rails used as the third conductor. The electric rolling stock is of two classes: independent motor cars, used singly or in pairs, and locomotives of 300 tons each, for hauling trains of cars. The three-phase system of electric current which has been used on this line seems best adapted for electric traction work of the heavy character now being proposed, and of which the New York Rapid Transit Tunnel is an interesting example. The continuous current is economical and satisfactory for ordinary traction purposes, and in fact is particularly suitable for light and short railways, and for city lines with a traffic constantly changing and requiring many stops, but it is not applicable to the heaviest work.

MOTORMEN AND THE WASTE OF POWER.

Very little experience and observation in street car riding is necessary to enable passengers to appreciate that there is a wide difference in the amount of comfort (or discomfort) in the journey over the same division of a line in different cars. Those who have occasion to frequently travel on railroad trains between the same points—suburban passengers, for instance—have similar experiences. The different degrees of comfort or inconvenience met with are altogether apart from the condition of the roadway or the equipment, but are brought about by the differences in the capacity of the motormen or the engine drivers, as the case may be. If the passengers, whether on street cars or on railroad trains, have occasion to realize that the control of the movement of the car in which they are riding has a good deal to do with the celerity and ease with which they are carried, it is also true in an even more emphatic way that the railroad manager has reason to realize how widely different is the efficiency of the human element on which he is dependent to move his cars over the road. The differences are important and marked by dollars and cents in a very material way. It has been estimated that there is often a difference of 50 per cent in the amount of power consumed in the trip run of a car operated by various motormen.

Considering the number of men operating cars employed by even a small electric line and the number of trips made, it will be seen that the losses through the waste of power by motormen become serious. This leakage is not only going on all the time, but is practically unchecked. Few companies have undertaken to remedy it in any systematic manner. A readjustment of the matter means the instruction and discipline of the whole force of motormen, a work so difficult and delicate, not to say thankless, that managers are disposed to overlook the waste of power in the operation of cars by careless motormen. It is assumed that the charge on expenses which it causes can be made up by savings elsewhere. But economy in the use of power by motormen would not interfere with the practice of any other savings that an intelligent and careful manager might be able to enforce. Indeed, some of the most promising opportunities for the exercise of economy in street railroad practice seem to be in reducing the cost of distributing power, and the training of the motormen to be economical in the use of the electric current is an important phase of that problem.

Well-trained, careful motormen can usually manage to use the current for but a comparatively small part of a trip, unless the grades are heavy, or other peculiar conditions exist, and still keep within the schedule time. It is more important to maintain the limits of time than to attempt to conserve power. Appreciating to some extent the difference in the capacities of men, the writer has still been surprised to notice in making regular trips on the New York electric lines to what an extent motormen vary in using power for practically identical work. Some handle the controller so that over half the trip is usually made with the power shut off and the car drifting under its own momentum. Slow-downs or stops are made with little use of the brakes; the speed at which cars approach switches is so regulated that cars drift over them; after stops the car is got under way quickly, but with proper use of the lever, so that the full advantages of the series-parallel controller are obtained; that in a general way is how a careful motorman will operate his car; he not only helps to keep down the cost of power, but he minimizes the discomforts of riding.

Unfortunately the careful motorman is the exceptional one, not the average. So it happens that riding in electric cars, especially in the very long and heavy types, now so generally used, nearly approximating in size steam cars, is commonly an uncomfortable experience. Starts and stops are so abruptly made that passengers are thrown against one another, and the pleasures of riding become a delusion. That

is one side; the other is that the poorly-trained and incompetent motorman, who is inconveniencing passengers, is running up the railroad's bill for power and repairs. By his carelessness he is wasting power in every possible way. While he is jolting his passengers, he has, say, started his car off at sudden full speed, throwing his controller around all the notches; he has hardly started before he has to slow down for a crossing or a switch, and this requires the brake to be jammed to avoid a possible accident; perhaps this stops the car on the crossing, and the current has to be turned on to get the car across; whereas a careful motorman would have regulated his speed to drift across without applying brakes, jolting the car or wasting power.

It is hardly necessary to pursue the comparison further. It is apparent that efficiency in this respect is most noticeable and important in making stops and in starting cars. It is estimated that at least 75 per cent of the energy consumed by a car per mile run is in getting a car up to speed or in accelerating after each stop, leaving but a fourth of the power to be accounted for in keeping the car in motion. Motormen who manipulate the controller so as to give a prompt start or stop, which is distinct from sudden jolting in starting and stopping, is using power in the most economical way, because his prompt acceleration to full speed makes possible an early shutting off of the current, so that the car can drift without power. Moreover, the electric motors are thus used at their highest efficiency under heavy loads for short periods, instead of being used at their lowest efficiency under light loads for a long time, as when a car is slowly started and the current is kept on after the speed has been attained, either because of carelessness or because the acceleration was too deliberate to give momentum enough to permit drifting.

With the importance of training motormen in the proper use of the controller so obvious, it may seem strange that more deliberate efforts are not made by managers to effect savings in the cost of operation by attention to this matter. The development of the electric machinery and power-house efficiency has diverted interest from the subject, but the time seems to have arrived when managers recognize the considerable savings that can be made in more careful instruction of their motormen, uninteresting and discouraging as such work always is. The savings in power which can be obtained are large and certain. Experience has seemed to demonstrate that it is between a fifth and one-half. Such economy is worth striving for.

POLYPHASE CURRENTS FOR ELECTRIC TRACTION.

The building of long suburban and interurban electric railroad lines in this country has become one of the notable features of electric traction work. Where such roads extend long distances from the power houses the problem of the transmission of power without enormous losses becomes a serious one. Most of the lines built in this country are operated by continuous currents, but on account of inability to transmit this current over long distances without too serious loss of voltage, attention has been recently given to the development of alternating currents; these can be carried many miles at very high potentials to the distributing points with little loss. Polyphase systems, with the alternating current, have been used to a considerable extent in Europe, but heretofore to only a limited extent in this country. There are now various indications that American railroad managers operating long distance interurban lines will look more favorably upon the polyphase system than they have heretofore.

In Washington the new company, in undertaking the reconstruction of some of its divisions, has discarded the use of continuous currents for a polyphase alternating system. In cities, and in thickly populated sections, continuous currents are likely, not only to maintain their present ascendency, but to continue to be almost exclusively depended upon for electric traction power. Alternating distributions, although their development is comparatively new, and was retarded in its earliest stages by many prejudices, have demonstrated such notable advantages in certain railroad work that a considerable extension in their use may reasonably be looked for. Besides the Washington work already referred to, the system has been used very satisfactorily on the Chicago & Milwaukee line, one of the longer roads in this country; among other places where it has either been adopted, or its adoption is proposed, may be mentioned Toledo and Dayton, Ohio, and Oshkosh, Wis. One of the earliest installations of the system was in Lowell, Mass. Tests of this plant, which was naturally experimental in large degree, showed an economy of fully 30 per cent in the cost of power as compared with that of a separate direct current power station.

At Lowell use was made of the water power, and the best advantages of the system are obtained when a cheap water power is available at any practicable distance from the line of road where the electric current is to be delivered. The reduction in cost of power obtainable under such circumstances is so great as to preclude the use of a direct current system with the development now reached in polyphase current installations. Probably it is not at all too sanguine to expect this system to be almost exclusively used on all roads running out into the country for 15 miles in length and upwards from the power-house, just as the direct current system seems likely to continue to monopolize the equipment of short city lines of heavy traffic.

Considerable objection has been made to the use of high potential alternating currents, because in existing plants it has to be transformed so many times. Ususally such currents are generated at one central station, which may be located at whatever appears to be the most advantageous point for economy or other substantial reason, as the cost of transmission to the railroad is not material. If this generating station is at a considerable distance from the line, the current may be raised to 5,000 or to 6,000 volts. These high potential currents are carried to the distributing stations along the railroad, and the voltage reduced by step-down transformers, and then changed from alternating to direct current by means of rotary transformers, the current fed to the trolley wire being usually about 550 volts. This operation, it will be seen, involves three transformations of the current between its generation and distribution to the trolley feed wires. It may seem that the leakage of current would be excessive. This, however, is by no means the case at present, inasmuch as very economical machinery has been devised. The efficiency of large plants is especially marked, and the whole loss in all the transformations,

it has been carefully estimated, may safely be taken as about 10 per cent. Even if the leakage were greater, the loss would still not equal the drop in voltage on long lines operated by direct current. There is, moreover, the important saving in copper, one of the heavy items in electric railroad expenses, to be credited to the use of polyphase transmission.

With a reduction in the number of transformations of the current now necessary, it is obvious that the efficiency of the system would be improved and its extension encouraged. Indeed, a well-known electrical authority has stated that the chief problem remaining to be settled in electric traction work was the possibility of using polyphase currents without the necessity of transforming by rotary converters to direct current. In this matter, as in so many others connected with the higher scientific development of electric power, it is necessary to turn to Europe for such experience as there has been. In Switzerland several lines are in successful operation, using the alternating current without passing through the rotary converters to be changed into direct current. This is accomplished by the use of induction motors on the cars, and the method promises an important development.

SURFACE CONTACT ELECTRIC TRACTION.

The equipment of nearly fifty miles of electric lines in Paris to be operated by the surface contact system calls attention to a method of electric traction not used anywhere in the United States. There has, indeed, been only limited experience with such roads, even in Europe, and only a few installations which can be regarded as successful have been operated any considerable length of time. The equipment of such a large number of miles of line as is now being done in Paris would indicate that the objections which have heretofore been raised to the use of the system have been done away with or overcome. The new work is modeled after the construction at Tours, France, a small plant, which is reported to have been quite successful. As the Paris lines are being built by the originators of the Tours road, the experience gained in the development and operation of that system will be available, and altogether the results obtained promise to be among the most interesting developments of the near future in the electric railroad field. With a practicable surface contact system developed, to be suitable for all the many conditions which have to be met in the streets of a busy city, very important modifications in electric railroad building, at least in the larger cities of the world, may be expected.

In this country the progress made recently with the underground conduit or slot system has been so marked as to promise that it would be generally used where the conditions prevented the introduction of the unsightly overhead wires. The conduit system is, indeed, so expensive to construct that it can be built only in the busiest streets of large cities, where the traffic is regularly very heavy. While it does away with the overhead wires, which are so objectionable for a variety of reasons, some criticism may be raised to it, in that it disturbs the pavement of the street, both by the building of the slot, with its heavy supporting iron yokes, and the iron man-holes which have to be built at brief intervals. The drainage question is also a difficult one, and in New York City has been one of the most perplexing to overcome, causing many interruptions of traffic and troublesome break-downs. This is a matter which can usually be remedied, but when it means additional cost in construction for a system which at best is exceedingly expensive, it will be seen that it limits its extension, however desirable it may be in other respects. Another objection which does not apply on the lines in New York City, but which may be of considerable force at other places where the building of an underground conduit line might be under consideration, is that the equipment of the cars prevents them being used on extensions into the country districts where overhead wires and trolley poles are used. In this respect a practicable surface contact system would have considerable advantage, for the same cars that run over the city lines could be fitted with trolley poles and be operated on the suburban lines without inconvenience. In these days, when the electric lines are being pushed out in all directions into the country, this would be a consideration which would have weight in most cities.

What is of most importance, however, is that the first cost of building would be materially less in the case of the contact system as compared with the underground conduit. Incidental points in its favor are that it interferes little with the roadway and entails no problem of drainage. The objection to it, so far as developed, is that it is rather complicated in its operation, a criticism which has been fatal to a good many devices which otherwise have seemed to admirably perform the functions for which they were intended. The details of the Paris installation under this system will be of particular interest in the extent that the details of the plans have been simplified. The experience already had for several years in what has been practically experimental work in Paris, and in the several other lines in smaller towns of France, ought to have contributed a good deal in this direction. While experimental work with this system has been confined practically to France, no work at all having been done with it in the United States, a number of English inventors, of whom the well-known electrical authority, Prof. Sylvanus P. Thompson, may be named, have devoted time to developing the system. Prof. Thompson and his associates have built a short experimental line, and express themselves as confident of the success of the system where it is impracticable to use overhead wires.

The system gets its name of surface contact because the power is transmitted through a series of feeders, etc., to a treadle laid along the side of the track rail, and which is pressed down by the flange of the wheel as the car passes over the track. The depression of the treadle, acting on a series of plungers and levers, completes the electrical connection with the main feeder, and the current flows through the contact bars, which are raised and press against the collecting bar carried on the bottom of the cars. Weights prevent any body less heavy than a car pressing the rail treadle sufficiently to complete the electrical connection, and they also assure the contact bars falling back into normal position when the car wheels leave the treadle. The contact bars are thus "alive" only when the car wheels raise them, for they only then carry current. It will be seen from this brief outline that with so many connections necessary there is a great liability of something getting out of order.

STREET RAILWAYS.

SECURITIES AND REPORTS.

This is one of our four SUPPLEMENTS. In using the series it is to be remembered that they are inter-dependent publications, complete only as a whole. If utilized together, and with the fresh items of news the CHRONICLE contains from week to week, the investor will have all the information he needs in seeking a safe and remunerative lodgment for his money.

Street Railways forcibly illustrate this inter-dependence. Such roads obviously rely for their income, and therefore in great part for the value of their securities, upon the population and activity of the country they serve. Hence constant reference to our STATE AND CITY SUPPLEMENT will be found necessary by those wishing to purchase the stocks and bonds of street roads. Population, assessed valuation, tax rate, total debts of the counties, cities and minor municipalities are given at length in that publication, every one of which items is an essential fact contributing more or less to any correct estimate of the amount of suburban travel a given road commands.

The ABBREVIATIONS used in our Street Railway statements will be found explained in a table immediately following the last statement in this SUPPLEMENT.

A full INDEX which shows where each railway will be found is also given on the closing pages.

AKRON, OHIO.

POPULATION 1890 WAS 27,601; IN 1880 WAS 16,512; AND IN 1870 WAS 10,006.

NORTHERN OHIO TRACTION—Trolley.

Incorporated in Ohio July 1st, 1899, and is a consolidation of the Akron Traction & Electric and of the Akron Bedford & Cleveland. The Akron Traction & Electric was successor to the Akron Street Ry. & Illuminating Company sold at foreclosure March 28, 1899, and then purchased by Henry A. Everett, of Cleveland, as preliminary to the present consolidation. Mr. Everett is also President of the Cleveland Electric Railway, known as the "Big Consolidated," with which system close relations will be maintained.

ALBANY & SCHOHARIE VALLEY RAILWAY—To be a trolley road.

ORGANIZATION, ETC.—Chartered Nov. 15, 1895, under name of Albany Helderberg & Schoharie Electric Ry., to build a road from Albany over the Helderburg Mountains to Middleburg and Schoharie, with a branch to Clarksville, making altogether 45 miles. On Aug. 26, 1899, name changed to Albany & Schoharie Valley Railroad Co. Is also to carry freight. Stock authorized was increased from $300,000 to $1,250,000 in March, 1899; par $100. Road was to have been constructed during spring of 1899, but now is not expected to be in operation until July, 1900. The Albany Construction Co. (93 State Street, Albany), which is building the road, increased its stock from $5,000 to $250,000 in April, 1899. In Aug., 1899, N. Y. Railroad Commission gave authority to the road to issue $1,200,000 5 per cent bonds, $1,000 each, interest A&O, with City Trust Co. of N. Y. as Trustee.

OFFICERS—President, Henry W. Burgett, Boston; Treasurer, Charles E. Bibber, 49 Federal Street, Boston; Secretary, W. H. Ervin.—V. 69, p. 383, 439.

UNITED TRACTION.—A trolley road.

ORGANIZATION.—Chartered Dec. 30, 1899, as a consolidation of the Albany Ry. [chartered in 1863], the Watervliet Turnpike and RR. and the Troy City Ry. [chartered Jan. 31, 1866]. See V. 69, p. 1147, 1300; V. 70, p. 77. Stock was first $4,000,000, but increased to $5,000,000 in Feb., 1900. The additional $1,000,000 will go to provide equipment and improvements and take up $399,300 of Troy City debentures; the latter are omitted in the statement below. V. 70, p. 330.

In Sept., 1899, the old Albany Ry. entered into contract with Hudson River Power Transmission Co. of Mechanicsville for supply of power sufficient for operating consolidated system.—V. 69, p. 541, 909.

LEHIGH VALLEY TRACTION—A trolley road.

ORGANIZATION.—All the lines in and around Allentown were on Nov. 17, 1899, merged in a new company called the Lehigh Valley Traction. These lines were formerly operated by the Allentown & Lehigh Valley Traction and comprised the following companies:

Allentown & Bethlehem Rapid Transit,	Bethlehem & S. Bethlehem St. Ry.,
Allentown & Emaus Street Ry.,	Catasauqua & Northern St. Ry.,
Allentown Passenger Ry.,	Lehigh Valley Traction.,
Bethlehem & Allentown St. Ry.,	South Bethlehem & Hellertown Street Ry.

The Allentown Electric Light & Power and the Rittersville Hotel Co. & Park are also understood to be owned.

In Feb., 1900, it was stated the Bethlehem & Nazareth Street Ry. (10 miles) and the Bethlehem Electric Light Co. had been bought.

The outstanding securities on the property are as follows:

UNION TRACTION CO. OF INDIANA. *See Map, Page 10.*—A trolley road.

ORGANIZATION.—The Union Traction Company of Anderson was chartered Sept. 3, 1897, and commenced operations Jan. 1, 1898. In July, 1898, it absorbed Anderson Elec. Street Ry. and in Jan., 1899, the Elwood Electric Street Ry., and in June, 1899, the Marion City Ry. In June, 1899, was consolidated with the Muncie Anderson & Indianapolis Street Railway [organized to own the franchises in Muncie and build a line from Muncie to Indianapolis] under the title of the Union Traction Co. of Indiana. V. 69, p. 82. The purpose is to combine the electric lines of the Indiana gas belt. The Citizens' Street Railway of Muncie, Ind., has also been absorbed.

New mortgage, $5,000,000, gold.....	1899	5 g. J&J Int. at City Trust Co., N. Y., trustee.	3,440,000	July, 1919

BONDS—Of the $5,000,000 new mortgage, $300,000 are reserved for underlying bonds, $3,440,000 have been issued to acquire properties and for the improvements now under way, and $760,000 are held for future needs.

ROAD—At present embraces about 100 miles. Besides the city lines in Marion, Anderson, Muncie and Elwood, operates an interurban road from Anderson (via Linwood, Alexandria, Summitville, Fairmount, Jonesboro, Gas City and Soldiers' Home) to Marion, with a branch from Alexandria (via Orestes and Dundee) to Elwood. The interurban lines aggregate about 44 miles out of the 100 miles operated.

Additional mileage at present under construction and expected to be completed by July 1, 1900, is 63 miles as follows: From Anderson east to Muncie, 17 miles (via Chesterfield, Daleville and Yorktown), and from Anderson southwest to Indianapolis, 36 miles (via Pendleton, Ingalls, Fortville, McCordsville, Oaklandon, Lawrence and the State Fair Grounds). Also 5 miles Frankton Branch and 5 miles Middletown Branch. Construction of these lines and of a large central power station, with necessary storage batteries at Anderson, to be operated on a three-phase system, with sub-stations likewise equipped with storage batteries is approaching completion. The new station will replace the stations in the various cities and towns. The bonds above mentioned will provide for these extensions, and also for the new power station; $1,000,000 cash for new construction is on hand.

EARNINGS—The following earnings are on the 100 miles of completed road only. It should be noted that the reconstruction of the power house and lines interfered not only with traffic but also with the economical operation of the road.

Six months ending Dec. 31, 1899:

Gross earnings	$222,895 02
Operating expenses, including taxes	112,640 48

POPULATION 1890 WAS 65,533; IN 1880 WAS 37,409; AND IN 1870 WAS 21,789.

ATLANTA RAILWAY & POWER—A trolley road.

ORGANIZATION—This is the old Atlanta Consolidated Street Railway, incorporated in 1891 and name changed as above July 1, 1899. A consolidation with the Atlanta Railway and the other street car lines in Atlanta had been arranged under the new name; but injunctions prevented the consummation of the plan, and in Jan., 1900, the scheme was abandoned.—V. 70, p. 125.

The Trust Company of Georgia (Joel Hurt, Prest.) owns both the Atlanta Railway & Power and the Atlanta Railway.

A sharp contest was in progress in 1899 between the Atlanta Railway & Power Co., representing the consolidated lines of Atlanta, and the Collins Park & Belt RR., which latter was seeking franchises covering the principal streets of Atlanta. In August, 1899, the Collins Park road was successful in obtaining its franchises.

ATLANTA ELECTRIC RY.—A trolley road.

ORGANIZATION—Operated by Atlanta Railway & Power for a division of receipts. Stock was $100,000 and first mortgage gold coupon bonds $30,000, due in 1906; miles of track, 3, and leases Lakewood Park. Sold at foreclosure in 1898, but in Nov., 1899, a re-sale was ordered. In Feb., 1900, no date for sale had yet been appointed.

ATLANTA RAILWAY.—A trolley road.

ORGANIZATION—This company was a reorganization July 1, 1895, of Atlanta City St. Ry. and the *Atlanta Traction Co.*, foreclosed in 1895.

In Nov., 1898, a Baltimore syndicate, headed by Middendorf, Oliver & Co., purchased entire stock and bonds; subsequently this syndicate sold their interest to parties identified with the Atlanta Consolidated Street Railway. In Jan., 1900, however, plan for consolidation with Atlanta Railway & Power abandoned.

COLLINS PARK & BELT.—An electric road.

ORGANIZATION—Owns 10 to 15 miles of track in the vicinity of Atlanta. Much new mileage projected. Constitutes an opposition line to the old roads, namely the Atlanta Railway & Power and the Atlanta Railway. In August, 1899, was granted a franchise by Atlanta City Council. See V. 69, p. 491. Franchise provides that in case of consolidation with another road both companies are to pay 5 per cent of gross receipts to city. Construction is well under way, including the new power house; it is expected that part of the system will be operating inside of 60 days. Change of name contemplated to Atlanta Rapid Transit Co. President, H. M. Atkinson.—V. 69, p. 491, 905.

BAY CITY, MICH.

POPULATION 1890 WAS 27,839; IN 1880 WAS 20,693; AND IN 1870 WAS 7,064.

BAY CITIES CONSOLIDATED RAILWAY

A trolley road. Combined population of territory supplied in 1898 (estimated) about 45,000.

No coupon on the $381,000 1st consols has been paid since that for Sept. 1, 1895. The bondholders' committee, of which M. P. Heraty is Chairman, represents about 80 per cent of the outstanding issue. The committee stated that a large expenditure of money was necessary to make needed improvements, that as the stockholders were unable to supply this money, it would have to be furnished by the bondholders either through the further surrender of coupons for a series of years or by direct contribution.

RECEIVERSHIP.—In July, 1899, the property was placed in the hands of M. P. Heraty of Philadelphia and J. C. Weadlock of Bay City, as receivers.—V. 69, p. 128. Court has authorized the issue of $178,000 receivers' certificates; the road is to be virtually rebuilt; contracts have been let for a new power-house and machinery.

BOSTON, MASS.

POPULATION 1890 WAS 448,477; IN 1880 WAS 362,839; AND IN 1870 WAS 250,526.

BOSTON ELEVATED RR.—

ORGANIZATION—The bill chartering this company was signed by the Governor of Massachusetts June 10, 1897. A portion of the elevated road must be built within three years (see V. 64, p. 329) upon the locations originally asked for, and thereafter the Aldermen may grant additional locations. The bill provides for an extensive system of free transfers. In addition to regular street railway taxes the company is to pay on all lines owned, leased or operated by it ⅞ of 1 per cent of gross income and a sum equal to the excess of the dividends over 6 per cent. On the other hand, its charter is understood to "grant it exemption from reduction of fares, and also other immunities."—(See Mass. RR. Commission, V. 65, p. 1223.) In August, 1898, the plans had been approved by the Massachusetts Railroad Commissioners, cars to be run with electricity by the "third rail" system.—V. 67, p. 318. Ground was broken early in 1899, and elevated road expected to be completed late in 1900.

Lease of West End.—The West End Street Ry. is leased until June 10, 1922, at 7 per cent per annum on its common and 8 per cent on the preferred stock, in addition to all interest, rentals, etc. Possession of West End was taken Jan. 1, 1898. See lease in V. 65, p. 1223.

COST—Engineer Kimball (of the company) estimated the average cost per mile of construction, including foundation, rails, &c., but not including stations or electrical equipment, at $296,949, and the total cost of construction covering a distance of 10·29 miles was figured at $3,055,605; equipment, terminals, stations, etc., at $3,890,000; land damages at a maximum of $5,039,786, minimum estimate $3,120,491.

STOCK—Capital stock is $10,000,000 (shares $100), on which in Feb., 1900, $75 per share had been paid in, represented by receipts, no certificates having been issued; the remaining $25 is to be called on April 16, making the full issue of $10,000,000, all paid in. First dividend, 2¼ per cent, was paid August 15, 1898.—V. 67, p. 221. In 1899, January, 2¼ p. c. was paid and in August 3 p. c. In 1900, Feb., 2¼ p. c.

The company has no direct bonded debt.

ANNUAL REPORT—Report of Boston Elevated Ry. for year ending Sept. 30, 1899, V. 69, in p. 1146; V. 70, p. 228, compared with the two previous years, shows earnings as follows:

MASSACHUSETTS ELECTRIC COMPANIES.—Electric light and street railways.

ORGANIZATION—Formed in May, 1899. Is not an incorporated company, but a voluntary association managed by a board of fifteen trustees, who hold the title to its assets. Messrs. E. Rollins Morse & Bro. and Tucker, Anthony & Co. of Boston, who promoted the combination, in June, 1899, in offering some of the stock for public subscription [$1,000 of preferred and $500 common was offered for $1,050], stated that "the Declaration of Trust contains strict provisions against the creation of any indebtedness whereby any shareholder or trustee can be held to any personal liability." The following is a list of the companies controlled when the undertaking was formed. For details regarding their earnings and condition, see statements below. A good many of these separate companies have since ceased to exist, having been amalgamated with others in accordance with the plan of the management to combine the various properties into a few large companies. Roads already merged are designated by an asterisk (*) prefixed to the name.

The foregoing comprise electric street railway lines in Eastern Massachusetts and Rhode Island. The companies given cover the greater part of the street railway mileage north of Boston as far as Nashua, N. H., and Newburyport and Gloucester, Mass., and south as far as Fall River, Mass., and Newport and Providence, R. I., connecting directly with the street railway system of Boston. Various electric lighting companies doing business in the same section are also included. It is stated that "the majority and in most instances practically all the stock" of the companies in the above list is held.

STOCK & BONDS.—The association has no direct bonded debt. Its share capital is represented by certificates of participation, which will give the owners a proportionate interest in the shares held by the trustees. The prospectus says: "These certificates will represent practically the entire capital stock of the above-named companies, as well as sufficient cash to take up the floating debts and provide needed improvements." Both classes of shares are reported exempt from taxation in Massachusetts.

The Brooklyn Rapid Transit Company in April, 1899, also acquired, through one of its constituent companies, all the franchises and properties of the former Brooklyn & Brighton Beach RR Co., and this has now been converted into an electric road. The company also leased for the period of 999 years the Prospect Park & Coney Island RR, the New York & Coney Island RR. and the Prospect Park & South Brooklyn RR. In November, 1899, also acquired from the Reorganization Committee of the Kings County Elevated Railway Co. and Fulton Elevated Railway Co. all the preferred and common stock of the newly-organized company which has succeeded to those properties In exchange $2,000,000 of the stock of the Brooklyn Rapid Transit Co. was given. The capital stock of the new Kings County Elevated Company is $2,800,000 preferred and $6,000,000 common, and the company has an authorized bonded indebtedness of $7,000,000 in 4% bonds, of which only $5,000,000 will be issued, making the total fixed charges of the new company as acquired by the Brooklyn Rapid Transit Co. $200,000 per annum.

The *Brooklyn City RR. Co.* is held under a 999 year lease, dated Feb. 14, 1893, guaranteeing all charges and 10 per cent dividends on $12,000,000 of stock. The lease is nominally to the Brooklyn Heights RR. Co. but practically to the Brooklyn Rapid Transit Co., since that company owns the entire capital stock of the Brooklyn Heights Company and guarantees payment of dividends to lessor, as said above. In 1898 the Heights Company leased also the Brooklyn Queens County & Suburban RR., theretofore operated separately On April 1, 1899, the Heights Company leased the Brooklyn Union Elevated RR. Co. for one year for $100,000 and fixed charges, and also on the same date the Nassau Electric RR. for one year for $150,000 and fixed charges On Feb. 13, 1900, a lease of the Nassau Electric to the Heights Co. was made for 999 years. See terms under Nassau Electric.

In the reorganization of Long Island Traction the old $30,000,000 stock paid an assessment of $10 per $100 share, the old stock being reduced to $20,000,000, and $7,000,000 of 5 per cent bonds being authorized, against $3,000,000 of Long Island Traction

In his annual report President Rossiter estimates the entire net fixed charges for the ye ar beginning July 1, 1899 (including the Kings County Elevated), at $3,406,000, and says gross earnings will be *not less* than $12,000,000.

STOCK—Stock authorized is $45,000,000; issued $45,000,000. The stock was formerly held in a voting trust, but this terminated January 1, 1900, and control is now vested in the owners of the shares.

The Rapid Transit stockholders voted Feb. 11, 1899, to increase the stock from $20,000,000 to $45,000,000.—V. 68, p. 185, 329.

In April, 1899, stockholders were given the privilege of subscribing to the extent of 7% of their holdings for Brooklyn Rapid Transit, stock at par, the proceeds of this issue of stock being used in the acquisition of the Brighton Beach Railroad properties and the electrical reconstruction of those properties, as well as of the leased properties of the Prospect Park & Coney Island RR. Co. and allied lines. The total amount thus issued was $2,713,900,

Bonds—Of the $7,000,000 fifty-year gold 5s of 1895, $1,875,000 took up collateral trust notes, $3,000,000 went to stockholders for the assessment; balance for future requirements of the road. For description of property covered by the mortgage see V. 62, p. 1138. The Central Trust Co. is mortgage trustee. In December, 1897, bonds for $1,217,000 were listed, issued for purchase of Sea View RR. and for extensions and improvements.—V. 65, p. 1219. In October, 1898, $227,000 additional were listed. See application in full, V. 67, p. 904.

Brooklyn City RR. mortgage of 1891 is for $6,000,000 and is a first lien on the old Brooklyn City road and a consol. lien on the lines acquired by consolidation in 1890. Of the $6,000,000 issued, $4,373,000 are in the hands of the public and the balance is held in the guaranty fund.

The total authorized issue of first consolidated mortgage gold 5s of the Brooklyn Queens County & Suburban RR. is $4,500,000, of which $1,666,000 are reserved for extensions, on which they will be a first lien Of the $2,234,000 outstanding, $2,255,000 in 1898 were endorsed with the guaranty of the Brooklyn Heights RR. Co. as to principal and interest, and in January, 1899, provision was made for guaranteeing the remainder on the payment of ten dollars per bond Both B. Q. C. & S. loans are subject to call in 1916.

The Sea Beach Ry. 1st 4s also are guaranteed as to principal and interest by the Brooklyn Rapid Transit Co.—V. 65, p. 1219.

MILEAGE—The system February 1, 1900, included:

	Miles.		*Miles.*
Brooklyn Heights RR.	1·27	New York & Coney Island..	2·41
Brooklyn City RR.	204 77	Prospect Park & So. Bklyn.	1·15
Brookl. Queens Co. and Sub	45·03	Coney Island & Gravesend.	6·43

Sea View RR.	2·20	Grand total	504·00
Prospt. Pk. & ConeyIsland.	17·34	Franchises unbuilt (about)	200·00

The company in 1899 opened several new routes to Coney Island, among them one from Hamilton Ferry to the Island, another from the Bridge to Brighton Beach (surface route); also from Broadway Ferry to Brighton Beach, besides beginning the run ning of through trains to Manhattan Beach via the Elevated road.

On Nov. 1, 1899, began giving transfers between the elevated and surface roads at certain points of juncture between the two, but discontinued transfers at the same points from one surface road to another. In Feb., 1900, on the recommendation of the State Railroad Commissioners, so far modified this last arrangement as to grant optional transfers (good for either the surface roads or the elevated line) at 65th St. and 3d Ave., and 36th St. and 5th Ave.

GENERAL FINANCES—During the year ended June 30, 1899, the Company added to its property 238 miles of track, elevated and surface, and the acquisition of the Kings County Elevated gives 22 additional miles. All of the properties thus acquired were secured through the issue of new Brooklyn Rapid Transit stock and entail no new fixed charges for such purchase except the rental to be paid for the Prospect Park & Coney Island RR. ($40,000 per year) from the time the lease of that property went into effect—June, 1899. Moreover, all the properties whose stocks have been acquired by the B. R. T. Co. have recently had their fixed charges greatly reduced by process of reorganization.

REPORT—The annual report will be found in the CHRONICLE of August 26, 1899. The method of operation is to have all the railroad companies leased to the Brooklyn Heights Railroad Company, which is the operating company, and the income of the Brooklyn Rapid Transit Company consists of the surplus profits of the Brooklyn Heights Company, and such moneys as it may receive from the stocks and bonds held by it. The table below gives the operating statement of the Brooklyn Heights Company for the year ending June 30, 1899, with comparison for the preceding year, and includes the operation of the Brooklyn Heights Railroad Company, the Brooklyn Queens County & Suburban Railroad Company, the Brooklyn City Railroad Company and the Sea Beach Railway Company for the entire fiscal year, and of the Brooklyn Union Elevated Railroad Company and Nassau Electric Railroad Company for three months only of the fiscal year. For purposes of better comparison the figures of the leased companies for the corresponding period of the preceding year are combined with those of the Heights Company, although they were not at that time a part of the Brooklyn Rapid Transit system.

Road—Owns from Fulton Ferry to East New York, 5·73 miles; Broadway and Lexington Avenue to Broadway Ferry, 2·78 miles, and Myrtle Avenue to Adams Street and Brooklyn Bridge, 5·08 miles; branch to Greenwood, 3·58 miles; to Cypress Hills, 1·4 miles, and to 65th Street, 1·77 miles; total, 20·34 miles; second track, 20·34 miles; total track, 40·68 miles. Cars are run direct from Brooklyn Bridge, via Union Station at 36th Street and 5th Avenue, over the old Prospect Park & Coney Island to Coney Island.

The company's trains have been run across the Brooklyn Bridge since June, 1898, (V. 66, p. 1187), and on July 1, 1898, the operation of the Bridge railroad was commenced. The contract was made by the then receiver. A share of this contract is assumed by the Kings County Elevated. See terms of contract in V. 67, p. 27, 426. The main lines will be entirely equipped with electricity (third-rail system), during 1900.—V. 66, p. 27. In July, 1899, the running of electric trains to Coney Island (via the Fifth Ave. branch and the Prospect Park & Coney Island) was begun.—V. 69, p. 129. On Jan. 29, 1900, began to use the electric system on the Lexington Avenue (East New York) line.—V. 70, p. 22[illegible].

In March, 1898, an agreement was made with Long Island RR. providing for joint construction of connecting line at East New York and running of through trains from Jamaica to Brooklyn Bridge and from Rockaway Park to Broadway ferries. Construction begun in Nov., 1898, and work completed in February, 1899.—V. 67, p. 1054. Rockaway line operated from July, 1898, and line to Jamaica opened in Oct., 1898. V. 67, p. 124, 175, 954.

Annual Report—Earnings are now included in Brooklyn Rapid Transit. Report for year ending Dec. 31, 1896, in V. 64, p. 80. Increased earnings in 1895 were due to strike on trolley roads.

(2) KINGS COUNTY ELEVATED RR.—A steam road, but is being changed to electricity under the arrangement by which the property has passed into the possession of the Brooklyn Rapid Transit Co., the formal transfer of which occurred on Nov. 25, 1899.

Organization—The old Kings County and Fulton Elevated roads were sold at foreclosure July 6, 1899, and on July 7 the present Kings County Elevated Railroad Company was incorporated. The foreclosure was in accordance with reorganization plan in V. 68, p. 724.

In Oct., 1896, arrangements were first made for the running of through trains to Brighton Beach. V. 63, p. 754. In July, 1899, began running trains to Manhattan Beach (V. 69, p. 80) in connection with the Brooklyn & Brighton Beach and a section of the Manhattan Beach division of the Long Island RR. Connection was made in 1897 with the Long Island Electric for the running of cars to Jamaica, Queens, Hempstead and Far Rockaway.—V. 64, p. 330.

Trains began crossing the Brooklyn bridge in November, 1898.

Stock and Bonds.—The Brooklyn Rapid Transit Co. owns the entire stock.

(3) NASSAU ELECTRIC RAILROAD.—trolley road.

Organization—Chartered March 13, 1893, under the laws of New York. Opened in July, 1895, and in April, 1896, leased the Atlantic Avenue RR., etc. Cars commenced running over the Brooklyn Bridge Feb. 15, 1898—see V. 66, p. 383. In Jan., 1899, sale of Nassau Electric stock, formerly held by Johnson Brothers, R. T. Wilson & Co. and others, was made to Brooklyn Rapid Transit, and subsequently the latter also acquired the holdings of Patrick H. Flynn. As stated above, the Rapid Transit Company owns $8,499,716 out of the $8,500,000 common stock of the Nassau Electric and $6,052,000 out of the $6,500,000 preferred stock. The Rapid Transit assumed the management of the road on May 1, 1899.

April 1, 1899, the Nassau Electric was leased for one year to the Brooklyn Heights RR., and Feb. 13, 1900, a lease for 999 years was made from Apr. 1, 1900. Under the lease the Heights Company will pay all fixed charges, taxes and organization expenses of the Nassau Company, and in addition all net earnings from the property leased the latter to be not less each year than 4 per cent on the $6,500,000 outstanding Nassau preferred stock

The Nassau Electric Railroad and its subsidiary lines in 1898 underwent recapitalization, by which provision was made for the retirement of all of the outstanding securities of the various companies controlled by it, viz.: The Nassau Electric Railroad Co., the Atlantic Avenue Railroad Co., the Brooklyn Bath & West End Railroad Co., the Kings County Traction Co.—see V. 66, p. 39, 183. The assets of the Kings County Traction Co. were purchased at public sale in July, 1898, by the syndicate conducting the consolidation.—V. 67, p. 74, 125. Certificate of merger of Atlantic Ave. RR. and United RR. was filed on Jan. 26, 1899.—V. 68, p. 283, 821.

CHICAGO UNION TRACTION.—Cable and electric.

ORGANIZATION.—Incorporated in Illinois June 3, 1899, by the Elkins-Widener Whitney syndicate and purchased for $10,000,000 cash the holdings of stock of Chas. T. Yerkes in the West Chicago and North Chicago roads. These holdings consisted of $3,200,000 West Chicago stock and $2,000,000 North Chicago stock. Subsequently the two systems were leased, the West Chicago for a yearly rental equal to 6 per cent on the stock and the North Chicago for a rental equal to 12 per cent on the stock, the leases being dated June 1, 1899. By a tripartite agreement entered into on the same date the Union Traction Company's holdings of stock of the two roads are to remain in trust with the Illinois Trust & Savings Bank of Chicago "for all time" as security for the leases.—See V. 68, p. 1131.

In December, 1899, negotiations were pending for the acquisition of the Chicago Consolidated Traction. The Union Traction offered $45 per share for the former company's stock, in bonds bearing 4½ p. c. interest and guaranteed by Union Traction. In January, 1900, it was reported that $13,000,000 of the total issue of $15,000,000 stock of the Consolidated Traction had been turned over under this plan.

STOCK AND BONDS.—The $12,000,000 preferred stock was subscribed for at par, a bonus of 50 per cent, however, being given in common stock.—V. 68, p. 1225. There was thus $2,000,000 cash left after the payment of $10,000,000 to Mr. Yerkes, and this $2,000,000 is to be spent for improvements and extensions of the lines acquired.

In December, 1899, both issues of stock were listed on the New York Stock Exchange. V. 69, p. 1299.

(1) NORTH CHICAGO STREET RAILROAD.

ORGANIZATION—Incorporated under the laws of Illinois in 1886 "to construct, lease, purchase, or otherwise acquire horse, dummy and street railroads in Chicago and Cook County, Illinois." It controls the surface street railroad system in the North division of the city of Chicago, through the purchase in 1886 of 2,501 shares out of a total of 5,000 shares capital stock of the North Chicago City Railway Co., said road being leased for 999 years from 1886 Franchise 99 years from Feb., 1865. Annual payment to city for electrical franchise, $10,000; car license, $50 per car per annum, 3 trips per day to a car.

In February, 1899, all the suburban leased lines of the North Chicago and West Chicago systems were united under the name of the Chicago Consolidated Traction (a separate concern), which see.

In June, 1899, the North Chicago was leased to the Chicago Union Traction for a yearly rental equal to 12 per cent on the stock.—V. 68, p. 1131.

(2) WEST CHICAGO STREET RR.—*(See Map page 28.)*

ORGANIZATION—Incorporated July 19, 1887 under laws of Illinois.

LEASES.—Control of the *Chi. W. Div. Ry.* (96 miles track) was acquired through purchase of a majority of its shares (6,251) of capital stock, and the road leased for 999 years from Oct. 20, 1887, at an annual rental of $35 per share, the principal and interest of its bonds being assumed—see V. 65, p. 281. Of the *Chicago Passenger Ry. Co* (34 miles track) stock, the Chi. W. Div. Ry Co. owns a majority ($730,100), and the road was leased March 15, 1889; lease extended in 1897 for 50 years to the West Chicago Street RR. The West Chicago St. RR. Co. agrees to pay 5 per cent a year on capital stock of the Passenger Ry. Co. and to guarantee its fixed charges. The West Chicago formerly leased Cicero & Proviso St. Ry. and Ogden St. Ry., but these roads have now passed to the Chicago Consolidated Traction.

In Feb., 1899, all the suburban leased lines of the North Chicago and West Chicago systems were acquired by the Chicago Consolidated Traction, which is a separate corporation.—V. 68, p. 86, 769.

In June, 1899, the West Chicago was leased to the Chicago Union Traction for a yearly rental equal to 6 per cent on the stock.—V. 68, p. 1131.

Bonds.—Of the $12,500,000 consols under the mortgage of November, 1896, $3,896,000 can be issued only on retirement of an equal amount of the outstanding first mortgage 5s, and $2,500,000 for improvements and extensions at 75 per cent of the cost thereof. In February, 1897, a sale of $6,000,000 of the consols was made to a syndicate; the proceeds were used to retire $2,000,000 debentures in April 28, 1897, and the floating debt, and bonds are reserved to retire the $612,000 debentures subject to call in 1900. The mortgage covers 202·7 miles of track, including West Chicago Street RR., 72·7 miles (owned); Chicago West Division Ry., 96 miles (leased), and Chicago Pass. Ry., 34 miles (leased). See V. 64, p. 176, 333, 472. Chicago Pass Ry. consol. 5s are reserved to retire the 1st 6s.—V. 65, p. 235.

Stock.—Recent issues—April. 1, 1893, $1,000,000; Aug. 1, 1893, $1,100,000, and Nov., 1893, $1,089,000.

Chicago West Division Stock is $1,250,000, of which $625,100 is owned by the West Chicago Street Co., the remainder ($624,900) being guaranteed 35 per cent yearly under the lease. *Chicago Passenger Railway* stocks $2,000,000, having been increased from $1,000,000 in 1896, but only $1,340,300 stock has been issued. The West Chicago St. RR. Co. guarantees under operating contract 5 p. c. on stock, of which $730,000 is owned by West Chicago.

GENERAL FINANCES.—Application dated June 29, 1897, for listing the stock and bonds on the N. Y. Stock Exchange was given in full in V. 65, p. 281, including general balance sheet of June, 1897, and detailed information regarding the leases and finances of the company.

Interest payable at Northern Trust Co.

Trustees of 1st mortgage were Farmers' Loan & Trust Co. of N. Y. and American Trust & Savings Bank, Chicago. In June, 1898, the Equitable Trust Co. was appointed in place of Farmers' Loan & Trust Co., the latter having been held incompetent to act, but case appealed to U. S. Court.—V. 66, p. 1237; V. 67, p. 75.

Note.—The total issue of old first mortgage bonds was $7,574,000, of which in 1900 $834,000 had not assented to readjustment plan of 1895. Of these last $102,000 were in the treasury, while $605,000 held by Mr. William Ziegler are still in litigation and receiving no interest; the balance, $127,000, is allowed to receive interest at 3 per cent per annum, or 60 per cent of face of coupons. Holders of first 5s who assented to plan received in exchange for their principal 60 per cent in guaranteed debentures and 15 per cent in incomes. The validity of the Ziegler bonds has been upheld.—V. 70, p. 176.

Stock—In May, 1896, trust certificates representing Lake Street stock for $5,009,300 were offered to stockholders of Columbia Construction Co. at $18·90 a share; the stock itself will be held in a ten-year voting trust.—V. 62, p. 908.

Bonds—The gold debentures are secured by deposit of the old bonds with the Northern Tr. Co.; their p. and i. are guaranteed by the Northwestern Elevated RR. Co. When all the old bonds have been exchanged, they will be reissued to the extent of 60 per cent, and the balance canceled.

ROAD—Owns in Chicago a double-track elevated railway, Market Street from Madison Street to Lake Street, thence to the Western city limits, being 6 2-5 miles, equal to 14¼ miles of single track. Connects with Suburban RR. for traffic outside the city. V. 65, p. 236. Trains began running over the Loop line in March, 1897. In 1898 acquired franchise for 1 mile road elevated and 1½ miles surface, which will be built by the Cicero & Harlem Ry. Co. (which see below); this piece was opened April, 1899.

NORTHWESTERN ELEVATED RR.—

ORGANIZATION—In Dec., 1898, obtained loan of $4,500,000 from syndicate headed by Blair & Co. of New York, upon its notes, payable on or before 18 months from date, bearing 5 per cent interest, secured by deposit with Ill. Trust & Sav. Bank, Trustee, of the company's entire capitalization, as reduced, $5,000,000 1st 5s, and $5,000,000, each of common and preferred stock. Construction actively under way, and it is hoped to have the road in operation by May, 1900.—V. 67, p. 1357. Road was to be completed Jan. 1, 1900, but Chicago Common Council (V. 70, p. 39, 76, 125) granted extension of time to complete sub-structure to May 31, 1900, and to Jan. 1, 1901, for the building of stations. A payment of $100,000 was exacted for the extension.

Stockholders on Dec. 29 authorized a new 40-year 5 per cent first mortgage for $5,000,000 to take the place of the mortgage of 1894; proceeds will be used to pay the Blair loan, thus releasing the holdings of stock now tied up. The stockholders of the Columbia Construction Co. have been given the first right to take the bonds at 99. The bonds are dated Jan. 1, 1900, mature Jan. 1, 1940, and are redeemable upon any interest day at 105 and interest. Bonds are $1,000, with coupons payable Jan. 1 and July 1. The Blair notes have been called for payment March 1, 1900.

DETROIT, MICH.

POPULATION 1890 WAS 205,876; IN 1880 WAS 116,340; AND IN 1870 WAS 79,577.

On Aug. 11, 1899, the Detroit Common Council passed ordinances to compel the Detroit Citizens and the Detroit Fort Wayne & Belle Isle to sell eight tickets for a quarter, the Detroit Electric being already required by its charter to sell tickets at this rate good until eight o'clock at night. V. 68, p. 670, 926, 1023, 1132; V. 69, p. 26, 79, 179, 384; V. 69, p. 695. The Detroit Citizens brought suit to prevent the enforcement of the ordinance and obtained a restraining order. The city appealed; case argued and decision pending in U. S. Court.

CHICAGO DETROIT & TOLEDO RR.

ORGANIZATION—Projected trolley road. Incorporated April 23, 1898, to build a line from Detroit south to Toledo, O., 60 miles. Stock, $500,000. Among the stockholders are John C. Schaffer, George D. P. Robinson, T. S. Mordant, D. E. Town, Chicago; Charles W. O'Brien, Leopold Freund and Alex. E. Riepelle, of Detroit.

CITIZENS' TRACTION CO.—

ORGANIZATION—Organized in 1897, and controls all the street railway lines in the city, viz., the Detroit Citizens' Street Ry., the Detroit Electric Ry. and the Detroit Fort Wayne & Belle Isle Ry. The three roads are operated under an agreement which provides that all interest on the outstanding bonds of each constituent company must be paid out of the earnings of the consolidated properties before any dividends can be declared.

JERSEY CITY HOBOKEN & PATERSON RY.—An electric system.

This is a consolidation Nov.,'99, of practically all the trolley roads in the northern part of New Jersey except the North Jersey Street Railway, and this latter is controlled by the same interests, namely the Shanley-Young syndicate. V. 69, p. 955. The Jersey City Hoboken & Paterson comprises the following roads:

Jersey City Hoboken & Rutherford Electric.
North Hudson County (controlling the Hudson & Bergen Traction and the Pavonia Horse RR.).
Palisades RR.
Paterson Central Electric.
Paterson Horse RR.
Paterson Passaic & Rutherford Electric.
Paterson Railway.
Saddle River Traction.
White Line Traction, formerly the New Jersey Electric.

All the roads enumerated have been completely merged in the Jersey City Hoboken & Paterson, with the exception of the Paterson Railway and the North Hudson County Railway, and in these two cases practically all the stock has been acquired, and merger is to be made presently.

STOCK AND BONDS.—The company made a mortgage for $20,000,000, as described below. Of the new bonds, $10,500,000 are outstanding at the present time. These have been used to acquire the stocks of the various roads absorbed, to retire the $2,459,375 White Line Traction five per cent ad-interim mortgage, and to take up the $404,000 of North Hudson County debenture 6s which were called for payment Feb. 1, 1900. The $300,000 of Paterson City Railway 2d general 6s have been called for payment April 1, 1900, and will be retired then. The remaining old bonds are not subject to call, but it is expected will be largely retired by voluntary exchange for the new bonds.

INDIANAPOLIS STREET RAILROAD.—A trolley system.

ORGANIZATION.—Incorporated in Indiana, March 7, 1899. After acquiring the Citizens' Street RR. of Indianapolis and the City Railroad, made a contract with the City of Indianapolis agreeing to surrender the rights and franchises of both companies and accept a new franchise running only thirty-four years. The contract also provides that cash fares are not to exceed five cents, with free transfers, and tickets are to be sold at the rate of six for twenty-five cents and twenty-five for one dollar.

The company also binds itself to pay over to the city (which is to expend it on the public works) the sum of $30,000 yearly, from 1899 to 1925, and $50,000 yearly, from 1926 to 1932, inclusive, the contract expiring in 1933—see V. 68, page 723. The city gets the right to purchase the property "at any time within two years and not later than one year before the expiration of this contract," nothing to be paid for the value of the franchise.

Under the plan of consolidation the stock of the Citizens' RR. was exchanged for Indianapolis Street Ry. securities, but the bonds of the Citizens' RR. remained undisturbed. Citizens' stockholders got a $1,000 4 p.c. gen. mtg. bond of the Indianapolis Street RR. and $200 in Indianapolis Street RR. stock for every 20 shares of Citizens' stock. As to the three-cent fare case, which the U. S. Court of Appeals decided in favor of the Citizens' Co. in Dec., 1897, see SUPPLEMENT of Nov., 1898, and V. 64, p. 842, 1180; V. 65, p. 51, 181, 1172.

METROPOLITAN STREET RAILWAY—Cable and trolley.

ORGANIZATION—Incorporated July 19, 1886. In May, 1894, the company secured control, by purchase of all the capital stock, of the Kansas City El. (20·58 miles) and assumed the debt of that company. In like manner it controls Kansas City & Rosedale St. Ry. and South Suburban St. Ry. In June, 1895, the charters of all the constituent companies were extended to 1925.—V. 60, p. 1105; V. 67, p. 634. In July, 1899, was granted franchises for various new lines, the company agreeing to pay the city 2 per cent of the cash fares collected from business originating on these lines. The Central Electric Railway of Kansas City, a new company, is also said to be controlled.

In October, 1898, P. D. Armour and Norman B. Ream purchased a controlling interest in the stock, and in June, 1899, elected their own board of directors.

In Jan., 1900, parties identified with the Metropolitan Street RR. purchased control of the Kansas City Electric Light Co. and the Edison Electric Light & Power Co., which together do the entire electric lighting and power business of Kansas City.

NEW YORK & QUEENS COUNTY RY.—

ORGANIZATION—Incorporated June 26, 1896. A consolidation of the Long Island City street roads, including Steinway Ry., etc.—V. 63, p. 229.

The Electric Illuminating & Power Company, said to supply practically all the electric lights used in Long Island City, was formerly owned and operated, but in July, 1899, control was transferred to the Electric Co. of America. The earnings are kept separate from the street railway. To June 30, 1897, the N. Y. & Q. C. RR. Co. had invested $565,000 in the El. Ill. & Power Co., this amount being included in the $1,078,750 of loans and bills payable then outstanding, but since paid off.

The parties owning the New York & Queens County also own the New York & North Shore, which connects with the Queens County at Flushing, forming a line to Far Rockaway.

MILWAUKEE ELECTRIC RY & LIGHT.

ORGANIZATION—Successor of Milwaukee Street Railway Company, sold in foreclosure Jan. 29, 1896, per plan in V. 60, p. 1009. Embraces all the street railway lines in Milwaukee. Controlled by the "North American Co." (See Miscellaneous Companies in INVESTORS' SUPPLEMENT.) The Company besides its street railway system owns and operates electric-light and power works (costing $1,625,938) under franchises said to be exclusive; these include all the electric light companies (with the single exception of one small plant), among others the Edison Electric Illuminating Company, the Milwaukee Electric Light Company, the Badger Illuminating Co. and the Milwaukee Arc Light & Power Co. Was furnishing in April, 1899, 57,518 incandescent lamps, about 1,244 h. p. in motors and 2,000 arc lights. Owns the stock of the Milwaukee Light, Heat & Traction Co. See its statement below.

The ordinance requiring the sale of tickets at less than five cents was declared invalid and a permanent injunction restraining its enforcement was served on July 1, 1898.—V. 66, p. 1089; V. 67, p 74, 126. In August, 1899, made proposition of settlement to the city, offering a gradual reduction of fares to a 4-cent basis on condition of a ten-year extension of old franchises and the granting of some new ones.—See V. 69, p. 385. After much skirmishing an ordinance was finally passed Jan. 2, 1900, providing for the sale of 25 tickets for $1 and 6 tickets for 25 cents, good only during commission hours until January 1, 1905, and thereafter good during all hours; and the city is to have the right (on determining to avail of it during the last six months of 1930) to purchase the property Dec. 31, 1934. In return for these concessions the franchises of the company are extended until Dec. 31, 1934. V. 70, p. 39.

All bonds are for $1,000 each, and interest is payable at Farmers Loan & Trust Company, New York.

Capital stock—The capital stock is $20,000,000, of which $17,000,000 is common stock and $3,000,000 is 7 per cent cumulative preferred stock on which interest is payable quarterly. In Feb., 1899, $750,000 additional preferred stock, issued in payment of loan for that amount, was listed on the N. Y. Stock Exchange, with authority to list up to 3,000,000 when issued in exchange for St. Paul Ry. deb. 6s. The debentures are to be sold or exchanged for preferred stock at not exceeding 7½ shares of preferred for each $1,000 debenture bond.—V. 6 , p 381. On February 1, 1900, amounts of preferred stock and debentures were as above.

For the preferred stock it is provided that if in any year dividends amounting to 7 per cent are not paid on said stock, the deficiency shall be a charge upon the net earnings of the company, and shall be paid subsequently before any dividend shall be paid upon or set apart for the common stock. In case of liquidation or dissolution of the company the holders of the preferred stock shall have prior right on the assets of the company before any amounts shall be payable to the holders of the common stock.

Dividends—All dividends on preferred to and including Jan., 1900 (13 per cent), have been paid. One per cent was paid on the common stock in August, 1899, and 1½ p. c. Feb 1, 1900.

See full description of property in application to the New York Stock Exchange in June, 1895.—V. 60, p. 1148.

Bonds.—The *Minneapolis Street Railway* Co. jointly and severally with the Minneapolis Lyndale & Minnetonka Railway Co. has issued $5,000,000 5 per cent 30-year first mortgage and first consolidated mortgage gold bonds, of which $890,000 are held in trust by the Farmers' Loan & Trust Company to redeem the $890,000 prior lien bonds. See statement to N. Y. Stock Exchange in June, 1895. The consols are also listed in London.—V. 60, p. 1149.

The *St. Paul City Railway* Company has issued $1,388,000 5 per cent 50-year *cable consolidated bonds* (including $680,000 held by the Farmers' Loan & Trust Company, trustee, to redeem the $680,000 prior lien bonds above) under a mortgage limited to $5,500,000. Under the mortgage these bonds can only be issued against the actual cash cost of construction, under a mileage limit of $15,000 per mile. Part of these consols ($1,138,000 at latest date), are guaranteed, principal and interest, by endorsement of Twin City R. T. Co. See statement to N. Y Stock Exchange in June, 1895.—V. 60, p, 1150.

ROAD—The entire system consists of 240 miles of standard-gauge road, all recently built or rebuilt, and thoroughly equipped. Two double-track electric lines, 9 miles long, connect the business centres of the two cities.

On the principal streets of the cities 80-lb. rail with welded joints and imbedded in concrete was used.

A second inter-urban line was completed and began to be operated on July 1, 1898, affording direct communication with Como Park and the State fair grounds. V. 68, p, 522.

On Jan. 1, 1899, bills payable outstanding were $110,000.

The company leases water power at St. Anthony's Falls (capacity 10,000 h. p.), which power is now used to run the entire railway system in both cities.—see V. 64, p. 704.

METROPOLITAN STREET RAILWAY—

Cable, underground trolley, horse.

ORGANIZATION—Chartered in 1893, and by consolidation, lease and otherwise has acquired control of practically all the street railways of Manhattan Island except the Manhattan Elevated and the Third Avenue RR.—(see V. 65, p. 621.) An agreement with Third Ave. RR. as to Kingsbridge road and Amsterdam Ave., etc., was reached in November, 1897.- V. 65, p. 977. In December, 1899, franchise was granted.—V. 69, p. 334. Terms of franchise the same as for the Fort George & Eleventh Avenue, which see.

The Metropolitan Street Ry. has absorbed by consolidation the following companies, embracing the "lines owned."

IN 1893—	IN 1894 AND 1895—
Houst. West St. & Pavonia Ferry.	Metropolitan Crosstown.
Chambers St. & Grand St. Ferry.	Lexington Ave. & Pav. Ferry (Cable).
Broadway Railway.	Columbus & 9th Ave. RR. (Cable).
South Ferry RR.	

In addition the companies shown in the table of mileage as "leased etc.," have been acquired from time to time by lease or stock ownership. The latest acquisitions are: In July, 1896, the New York & Harlem RR.; in 1897 the Central Crosstown (including Christopher and 10th Street) and Second Avenue. The miles of track operated has thus been increased as follows: From 80 in 1893 to 131 in 1894, to 140 in 1895, to 172 in 1896, to 227 in 1899.

Rapid Transit Road.—In March, 1899, the Metropolitan Railway syndicate made a proposition to the Rapid Transit Commission to build the proposed tunnel road (V. 68, p. 619), but in April, 1899 (V. 68, p. 774), withdrew its proposal on account of adverse criticism.

New Electric Lines.—The company in Nov., 1899, was using its underground electric system on Eighth Avenue line from 158th to Battery Place; over the entire Fourth Avenue line; over the greater portion of the Second Ave. line, and over the Sixth Ave. line via 59th Street and Amsterdam Ave. The Broadway cable also was being prepared for operation with the same motive system.—V. 66, p. 337, 520, 616; V. 67, p. 530, 756, 956.

In August, 1899, began to operate the Twenty-eighth Street and Twenty-ninth Street lines exclusively with air-power cars, and is expected to use this kind of motive power on the other cross-town lines in the course of time.

As to the relative earning capacity of the horse, cable and underground electric lines of the system see President Vreeland's statement in V. 67, p. 956; also V. 69, p. 489.

The New York Gas & Electric Light, Heat & Power Co., incorporated in Nov., 1898, with capital of $25,000,000, will distribute to the public, together with its own current, the surplus current of the Metropolitan St. Ry.—V. 67, p. 1263. The Metropolitan St. Ry. is largely interested in the International and American Air Power Co.—V. 68, p. 130. In November, 1899, President Vreeland was quoted as saying that the American Air Power Co., to the presidency of which he had just been elected, and which operates the compressed-air cars run over the cross-town lines, had been "practically under the control of that company since its formation." V. 69, p. 1060.

THIRD AVENUE RAILROAD—Undeground trolley.

ORGANIZATION.—Chartered Oct. 8, 1853. A cable road from Dec. 5, 1893, but in 1899 changed to underground trolley—the 125th Street line Sept. 29, 1899, the Third Avenue line above 65th Street Oct. 22, 1899, and the Third Avenue line below 65th Street on Nov. 19, 1899. In Jan., 1900, the electric line between 125th and 162d streets was completed. In Nov., 1895, purchased control of the 42d Street Manhattanville & St. Nicholas Ave. line. See V. 61, p. 872, 926. Control of Dry Dock E. B. & B. was obtained Aug. 23, 1897. (V. 65, p. 194). In January, 1898, a majority of the stock of Union Ry., N. Y., was purchased.—V. 66, p. 135. In Sept., 1898, Union Ry. purchased Yonkers RR. V. 67, p. 635. In April, 1899, the Tarrytown White Plains & Mamaroneck Ry. was acquired by the Union Railway.—V. 68, p. 674.

A traffic agreement, which went into effect April 29, 1899, has been entered into between the Manhattan Elevated and the Third Avenue Railroad system [comprising the Third Avenue RR., the Dry Dock East Broadway & Battery, the 42d St., Manhattanville & St. Nicholas Avenue RR. and the Union Railway lines], providing for an extensive scheme of transfers at cross-town junctions, and also at the terminal points of the two systems. The transfers are granted for an additional fare of 3 cents, making the cost of the entire journey 8 cents. For the latter sum a passenger can thus ride from the City Hall and South Ferry to Yonkers, New Rochelle and Mt. Vernon.—V. 68, p. 672, 872.

In Nov., 1899, was reported to have closed a contract with the Electric Storage Battery Co. for storage batteries having an aggregate of about 10,000 horse power.

There are other mortgages outstanding for $91,000.

Loans and bills payable Sept. 30, 1899, were $16,240,122.

STOCK—In October, 1898, $2,000,000 new stock was issued, making total then outstanding $12,000,000. The proceeds "were to be used for the purpose of providing funds to change the cable system to the underground electrical system upon the Third Avenue, 125th Street and Tenth Avenue lines." This new stock was offered to stockholders at par. In July, 1899, stockholders voted to increase stock from $12,000,000 to $40,000,000. The stock was to be issued as required to pay for improvements and to extinguish the floating debt, which on Sept. 30, 1899, was reported 16¼ million dollars.—V. 69, p. 29, 182. Five millions was to be used in taking up the $5,000,000 of new stock to be issued by the 42d Street Co. as below. In Sept., 1899, $4,000,000 of the new stock was sold to the shareholders at par, raising the outstanding amount of stock to $16,000,000.

In January, 1900, the company's requirements, including the floating debt, the money necessary to complete power house and to change equipment on the various properties, were estimated at $35,000,000. Negotiations were in progress with a syndicate represented by Messrs. Kuhn, Loeb & Co. to raise this sum. but in Feb., 1900, the banking firm mentioned withdrew from the negotiations. New arrangements with other parties were under consideration as the SUPPLEMENT was going to press. Committee of creditors appointed.—V. 70, p. 329.

(3) UNION RAILWAY OF NEW YORK—A trolley road.

ORGANIZATION—Organized under Chapter 340 of the Laws of 1892, giving authority to consolidate the Harlem Bridge Morrisania & Fordham Ry., the Melrose & West Morrisania RR. and the North Third Ave. & Fleetwood Park RR. Validity of consolidation affirmed by Court of Appeals Jan. 9, 1900.—V. 70, p. 77. Operates from 129th St. and 3d Ave. through the Borough of the Bronx, and with subsidiary lines, continuing thence to and through Mt. Vernon. Extensions projected from New Rochelle, through Larchmont, Mamaroneck, Harrison, Rye and Portchester to the Connecticut line.

THIRD AVENUE RR. IN CONTROL.—Controlled by Third Ave. R.R., which in Jan., 1898, purchased a majority of the stock.—V. 66, p. 135. In Sept., 1898, the Union Ry. purchased Yonkers RR, and will guarantee its $1,000,000 bonds, this guaranty being accepted by the Third Ave. V. 67, p. 635.

In Dec., 1899, accepted the terms proposed by Board of Estimate for the Kingsbridge RR. franchise, which are 4 per cent of gross receipts for the first 5 years, 6 per cent for the second, 3 per cent for the third and 10 per cent thereafter. The franchise is for 25 years, with privilege of renewal under certain conditions for another 25 years. At the end of the term (original or projected) the city acquires the property, paying for it in accordance with definitely-prescribed rules for fixing its value.—V. 69, p. 1248.

PEOPLE'S TRACTION CO.—To be a trolley road.

ORGANIZATION—A consolidation in February, 1898, of the People's Traction and N. Y. Westchester & Connecticut Traction. About 68 miles of road are projected. Under its franchise the old People's Company connects with Manhattan Island by proposed bridges over the Harlem. It parallels the Harlem between 134th and 172d streets, and its lines touch the Bronx River at Lafayette Avenue, West Farms Road and Bronx Park. The Westchester & Connecticut has a route from Lafayette Avenue through Bartow to the city line, and from Bronx Park along the Boston Road to the same boundary.

In July, 1899, purchased the North Mount Vernon Ry., built in 1896, extending over Chester Hill from North Third Avenue, 1½ miles, and has converted it into a trolley road. In April, 1899, the Mount Vernon Board of Aldermen granted a fifty-year franchise. In Feb., 1900, purchased the Pelham Park RR. of 1½ miles, extending from Bartow Station to City Island, and embracing the only franchise through Pelham Bay Park.—V. 70, p. 231.

STOCK—The combined stock of the old companies was $2,100,000.

PHILADELPHIA CO.—Gas (natural and manufactured), electric company, trolley.

ORGANIZATION.—Originally a natural gas company, but in February, 1899, nearly all of its $7,500,000 stock having been purchased by a syndicate headed by Brown Brothers & Co., of New York, and Alexander Brown & Sons, of Baltimore, its operations were extended, as permitted by charter, to absorb the Consolidated Gas Co. of Pittsburg (artificial gas—see V. 66, p. 1188), the Chartiers Valley Gas Co. and the Allegheny County Light Co. (electricity). It has also acquired the entire capital stock of the Mansfield & Chartiers Gas Co., and in June, 1899, purchased a controlling interest in the Equitable Gas Co., both natural gas —V. 69, p. 28. During August, 1899, it also acquired the entire capital stock of the Low Pressure Gas Co., which heretofore supplied the towns of Homestead and McKee's Rocks and the borough of Esplan, all adjacent to the City of Pittsburg. Pennsylvania Natural Gas stock was in Nov., 1899, taken in exchange for Philadelphia Co. stock at the rate of three shares of gas stock for one share of the stock of the Philadelphia Co. V. 69, p. 1015. In Oct., 1899, it also acquired the entire capital stock of the Union Gas Co. of McKeesport, which supplies the towns of McKeesport and Reynoldton. In accordance with an offer previously made (see V. 68, p. 479), the Philadelphia Company in October, 1899, began exchanging its stock for that of the United Traction Co., street railway system, below described.—V. 69, p. 744.

In Feb., 1900, the negotiations which have been in progress for some time for a merger of the Consolidated Traction with the United Traction were understood to be nearing completion.

(1) UNITED TRACTION CO.—

ORGANIZATION.—Formed in 1896, and in June 1897, and purchased all the property and franchises of The Second Avenue and North Side traction companies, and secured control of the Pittsburg Allegheny & Manchester through a lease for 950 years and the purchase of its stock. The Federal St. & Pleasant Valley Passenger Ry. is controlled through its lease for 950 years to the North Side Traction.

In March, 1899, the Philadelphia Co. offered to give $6,375,000 of its common stock in exchange for the $17,000,000 common stock of the United Traction. See V. 68, p. 479. In October, 1899, exchange of stock under this plan was begun and by Jan. 1, 1900, had acquired 331,751 shares. In Feb., 1900, it was reported that negotiations, which have been pending for some time for the merging of the United Traction and Consolidated Traction under the title of the Union Traction Co. are shortly to be consummated.—V. 69, p. 744.
